

# FEAR MISHAP TO POLAR EXPEDITION

## REPORT 200 KILLED IN JAPAN EARTHQUAKE

### FIRES FOLLOW TREMORS AND WRECK TOWNS

Two Hundred Houses Collapse in Toyo-Oka, Send Residents Into Streets

TRAIN BURIED IN TUNNEL

Military Airplanes Sent to Scene to Investigate Extent of Disaster

Tokyo—The department of communications announced Saturday that more than 200 persons are believed to be dead and several hundred were injured in the earthquake and fire at Kinosaki Springs, a famous resort visited by tourists. It is not believed that any foreigners were victims of the temblor of fire.

Osaka—Two hundred houses were reported collapsed and numerous fires were raging Saturday in the vicinity of Toyo-Oka, a town of 7,000 population, 40 miles northwest of Osaka, as the result of an earthquake which sent terrified residents into the streets, fearing a repetition of the Tokyo disaster of 1923.

The earthquake, according to meteorological reports, was horizontal vibration of nearly 3 inches which is a record for the past 30 years. The tremor was continuous and lasted for several minutes.

Military airplanes have been dispatched to the area affected to investigate the extent of the damages. No detailed reports have been received here as yet as to the casualties, but it is believed there were comparatively few.

### Die From Heat In Nebraska, Freeze At Superior Friday

By Associated Press

Chicago—The weather man apparently overlooked a few places and possibly one when he blew a hot blast on the thermometer and sent the mercury at a Nurni gait to unprecedented May heights throughout the middle west Friday.

Duluth, reading reports of sizzling temperatures from Nebraska to Michigan, claimed that its reputation for coolness had been maintained, when the mercury was able to struggle to only 68 at midday, dropping to 40 by night. Elsewhere in Minnesota, however, a record breaking heat wave was reported. Minneapolis and Fairmont, both registering 99 degrees.

Cooler weather was predicted for today and tonight over most of the affected area, with local thunderstorms across the northern belt. At Milwaukee a rise of 28 degrees was recorded in 20 minutes.

The temperature of 94 in Chicago equalled the record set May 26, 1911, and was a new city record in itself for any May day up to the 22nd. The highest official temperature reported was 106 at Danville, Ill. At Boone, Ia., 110 degrees was registered, while Charles City, Ia., and Dodge City Kas., each reported an even hundred.

Two heat deaths were recorded. In Lincoln, Nebr., a railroad section employee dropped dead, while a building construction worker at Omaha was overcome with fatal results. Climatic conditions of the night before accounted for six deaths.

The heat offering was mixed with violent wind and rain storms in western Minnesota and in portions of South Dakota. Thousands of dollars damage was done to buildings.

Superior—Accompanied by a gale which reached a velocity of 48 miles an hour, the temperature at Superior late Friday declined to 3 degrees above zero. It was one of the coldest May days on record. Saturday was slightly milder with decreased winds.

An electrical storm, during which the city was bombarded with huge hail stones, climaxed the storm Friday night. Records show the rainfall approximated a quarter of an inch.

No damage was done and ships cleared and entered port without difficulty.

### WHITE HOUSE PREPARES FOR SUMMER HEAT

Coolidge Will Leave Soon for Vacation Capital in Massachusetts Town

BY DAVID LAWRENCE

Copyright 1925 by Post Pub. Co.

Washington, D. C.—President Coolidge will actually transfer the seat of executive power from Washington to Swampscott, Mass., in a few weeks. It is going to be a "vacation" only with quotation marks around the word.

Preparations being made indicate that Mr. Coolidge will transfer his executive staff to the summer capital in the near future.

The president has been in office not quite two years but the only recreation he has developed is work and more work. He is at his desk early in the morning and late at night—always continuously, of course, but he is at the executive offices in and out of hours and sometimes on Sundays, too.

Mr. Coolidge is a glutton for work and for detail. Members of the executive staff do not recall a president who keeps in as close touch with details as does Calvin Coolidge and it seems to agree with him physically.

LONG HOURS

Under the circumstances, there is a lot to be assumed. He is 52, 22, to Swampscott to motor, play golf, fish or cruise, the assumption must be declared erroneous now. Mr. Coolidge may take a trip on the Mayflower now and then at weekends as in the past, but the general expectation now is that he will keep regular hours at the summer capital and that he will beat the mail man down to the office nearly every week day.

Arrangements are being made to carry the White House mail in special pouches on the over-night trains and, of course, in a short time after Mr. Coolidge has been at Swampscott the general mail will be going there direct. While many of the cabinet officers will be away for short vacations, the work of the departments will proceed as usual and at the end of the day many important matters will be sent to Swampscott for approval.

WILL BE MECCA

Thus the summer capital will be important as a mecca for officials as well as unofficial callers who have urgent business to transact, and from time to time members of the cabinet will come to confer with Mr. Coolidge at Swampscott. Altogether the president will be away about 10 weeks during which the White House will be repaired and necessary redecoration carried out as planned for more than a year.

Before Mr. Coolidge returns in the autumn it is expected that he will have conferred with Secretary Mellon on a program of tax reform to be launched before congress meets. Also the delicate negotiations with respect to war debts will be laid before the president almost daily for his guidance. Back in Washington, the program is to be one of business—as usual with added responsibilities of decision given to the cabinet members remaining.

### ORDER GUARDS TO BE READY TO FIGHT FIRE

Company D Instructed to Prepare for Forest Fire Duty Near Laona

Company D, 127th Infantry, has been instructed to hold itself in readiness for a quick dash to northern Wisconsin to assist in fighting forest fires, in the region of Laona. Captain E. F. Grundeman, commanding the company, was notified by telephone late Friday afternoon by Lieut. Col. N. M. Schantz, assistant adjutant general in command of troops at Laona to be ready to leave with his company on short notice.

Members of the company have been notified of the call and are to be ready to start if the order comes. Manufacturing plants have agreed to blow their whistles as a signal that the order has been received and quadsmen are instructed to report immediately at the armory prepared for service. Employers have been asked to relieve their guardsmen-employees of pressing work so they can accompany the company.

The guard unit at Neenah also has been notified to be in readiness for similar duty.

### Issue Subpena To Head Of Lodge In Ekern Lobby Quiz

Madison.—W. Stanley Smith, state insurance commissioner Saturday presented virtually all of his testimony intended to support charges made by him of alleged activities of Attorney General Herman L. Ekern in behalf of insurance interests. Ralph W. Jackman, his counsel, indicated. Cross-examination of Mr. Smith probably will be started soon after the special senatorial committee begins its investigation Wednesday.

Other witnesses are expected to be examined next week, including Charles E. Whelan, national lecturer for the Modern Woodman of America. A subpoena for Mr. Whelan was granted on request of Mr. Jackman Friday.

The origin of the insurance code revision bill and circumstances under which it was drafted were reached in the inquiry Friday. Commissioner Smith told of suggesting recodification and revision of the insurance law at a meeting of fire insurance agents at Green Bay, Oct. 9, 1924. He called a meeting of insurance men, who gathered in Madison Nov. 20, 1924, to discuss plans for the revision, he said. The commissioner then told of subsequent conferences with representatives of insurance companies and other phases of the bill's drafting and explained some of its provisions.

Frank Gilbert, counsel for Attorney General Ekern, objected to the introduction of a statement read by Mr. Smith before the senate committee on corporations and taxation in connection with the measure, declaring it went into the merits of the bill. He suggested that it should only be shown that there was a conflict of views between the insurance commissioner and the attorney general on group insurance. Mr. Jackman planned that the statement merely explained the bill and did not contain arguments in its favor.

Commissioner Smith testified that fraternal insurance organizations opposed the group insurance provision of the bill and that Mr. Ekern opposed this provision when he appeared before the senate at the request of members.

Other testimony was offered to show that Mr. Ekern was listed as a director of the Lutheran Brotherhood, a fraternal life organization, in 1924 and that his name appeared on a letterhead of the organization last February as counsel that Mr. Ekern was a delegate at the Detroit convention in September, 1923 of the National Association of Mutual Insurance Companies, and that H. P. Jansch, a former partner of Mr. Ekern, reported on legal work for mutual companies at the convention. When a discussion arose between counsel as to whether Jansch was connected with Mr. Ekern's firm at that time, a letterhead dated March 20, 1922, was introduced showing the name of Jansch as a member of the firm.

### NO WORD FROM PLANES SINCE FLIGHT BEGAN

Others Optimistic as Amundsen Took No Wireless—Think He Landed Safely

DANGER FROM ICE PEAKS

If No News Is Received Until June McMillen Expedition Will Go to Relief

BULLETIN

Boston—All the plans of the Captain Donald B. MacMillan arctic expedition will be subordinated to the relief of Roald Amundsen if Amundsen is not heard from before the MacMillan ships Bowdoin and Peary leave this country late in June.

MacMillan made this announcement Saturday afternoon just prior to departing for his home in Maine. He said the relief of Amundsen would be made the main object of his expedition and that his original plans would be entirely secondary to finding the Norwegian explorer who left Spitzbergen, Norway, Thursday on a flight to the pole.

Copenhagen, Denmark—Copenhagen was still without news of Amundsen at 5 o'clock Saturday morning, but there were no signs of anxiety here over the safety of the intrepid explorer and his companions. It is realized that the expedition to carry an increased fuel supply instead of wireless apparatus makes any news impossible until his return to Spitzbergen.

FEAR FOR SAFETY

New York—Persons familiar with arctic regions felt concern Saturday over the safety of Captain Roald Amundsen and his five companions in their north pole airplane expedition. They left Spitzbergen, Norway, Thursday afternoon in two planes and are long overdue on their return, unless they have reached the pole and are spending more time there than was planned in advance.

Latest advices from the North American Newspaper alliance were that no word had been received from the planes.

The airships are not equipped with wireless and no information can be obtained until the party returns to its base or some other station. The crew of the mother airships Farm and Hobby, however, express complete confidence in the safe return of the fliers. Shipping circles in Norway are also optimistic as the weather is favorable.

DANGER FROM ICE

The distance from King's Bay, Spitzbergen is 650 miles, which Captain Amundsen expected to negotiate in about nine hours. If a favorable landing place was not found at the pole, the journey from King's Bay to the pole and return should have occupied about 18 hours and the party should have arrived at its base Friday afternoon.

Captain Amundsen's greatest danger and fear were that great chunks of ice, half buried in the snow, and invisible from the air, would tear planes to pieces when they landed. There was also the danger of unpredictable storms and the possibility that head winds would slow down the flight until the two hour margin in his gasoline supply would be consumed. The gasoline tank would supply the engines for about 1,600 miles normally.

The explorer announced he would not attempt a landing if bad ice conditions were found, but would wheel about and return to Spitzbergen.

### ILLNESS MAKES COOLIDGE BREAK DAY'S SCHEDULE

President's Indisposition, Not Serious, May Have Resulted from Heat

BULLETIN

Washington—President Coolidge suffered an attack of indigestion Saturday but the indisposition was yielding to treatment. Nothing serious developed, and although engagements for the day were canceled, the president went forward with his plans for his customary Saturday cruise on the Mayflower.

Washington—President Coolidge cancelled his engagements for Saturday because of illness.

The president returned to the White House proper after a short visit to his offices, and the White House physicians were summoned. Officials said the indisposition was not of a serious character.

Plans were made to issue a statement after the physicians had made an examination.

There had been no previous outward hint of illness, although it was indicated that Mr. Coolidge had been feeling the effects of the increasingly hot weather of the capital. Mr. Coolidge went to office at the usual hour, but soon afterward told his secretary he had decided to go back to the White House and lie down for a while.

It was said that none of the engagements on Saturday's list were regarded as of an emergency character, and that the president and his advisors agreed they could be put over easily until next week.

Plans had been made for the usual Saturday afternoon cruise down the Potomac on the yacht Mayflower. There was no immediate indication whether that, too, would be abandoned.

### FIND BODY OF KIDNAPED GIRL

Murder Is Sequel to Triple Tragedy on Lake Maranacook, Me., Cottage

By Associated Press

Winthrop—The body of Miss Aida Heyward, who was taken from her cottage at Lake Maranacook early Wednesday by a man who shot her aunt, Mrs. Emma L. Towns and set fire to the cottage, was found Saturday in a room on the second floor of a cottage owned by Jennie Gray at Pine Point.

The Gray cottage is about a mile and a half from the former home of Miss Heyward. The state authorities had the name of a man who they believed had abducted the woman. The body was found on a bed cot and was almost nude. It was believed that Miss Heyward had been choked to death.

A general alarm has been sent out to capture Harry A. Kirby of Watertown, Mass., who for weeks has been occupying the cottage where the body was found and working in a local factory.

### NAB SHEPHERD EMPLOYEE FOR CONTEMPT OF COURT

Chicago—A charge of contempt of court faces James C. Callan, north side politician, accused by Philip J. Barry of attempted jury tampering in the trial of William D. Shepherd on a charge of killing his foster son, William M. McClintock with typhoid germs.

Callan was arrested Friday night as he was leaving the office of his attorney, who throughout Friday had promised he would surrender him to the state's attorney. He admitted he had been retained as a defense investigator and had talked to Barry, but denied making any attempt to influence him. Beyond the investigation of the alleged jury tampering at the state's attorney's office, the most complicated first week of the trial has produced only four tentative jurors to try Shepherd.

### MERGING NORTHWESTERN WITH OMAHA RAILROAD

Chicago—A consolidation of the Chicago and Northwestern railway and the Chicago, St. Paul, Minneapolis and Omaha railway, the former of which controls the latter, is in prospect through a stock exchange, it was disclosed Saturday.

The merger, announcement of which was first published last February, will require months to complete. The proposal for an exchange of stock in the Northwestern for stock in the Chicago, St. Paul, Minneapolis and Omaha, is going forward, with the stockholders of the latter accepting generally up to date, according to F. W. Saragant, general manager of the Northwestern.

### Expect Frank To Advertise University All Over State

Madison—Wisconsin Citizens outside of Madison probably will be given an opportunity to become acquainted with Dr. Glenn Frank, the newly chosen president of the state university, a member of the board of regents said Saturday.

Although Dr. Frank, editor of the Century magazine, has declined to announce his plans at this time, according to New York news dispatches it is known here that one of the arguments advanced for his selection was his ability as a speaker, and it was indicated that he would be expected to place the university's interests before the public. This probably would be accomplished by addresses in Madison and in different parts of the state, from time to time, the regents said.

The University of Wisconsin apparently is engaging in a promotion program, which would be extended by activities expected of the new president, who probably will be installed after commencement next month. It has been felt for some time that a greater realization of the university's needs on the part of the citizens of the state was necessary for the institution's proper expansion, a recent said.

Theodore Kronshage, president of the board of regents, told of the financial needs of the university in a series of newspaper articles recently. The athletic situation and the hopes for the future are being told by George Little, the new athletic director in a speaking tour that is taking him over Wisconsin and even in adjoining states. Almost immediately after his appointment, Director Little began speaking before civic clubs and other organizations in Madison and elsewhere. If Dr. Frank takes the platform in the university's behalf, it is understood he will speak in the advancement of the university generally.

President E. A. Birge, when he returns after the present university term, will become president-emeritus. He is understood, after 50 years of service on the institution's staff,

### SEIZE \$450,000 WORTH OF BOOZE IN BOSTON RAID

Uncover Gigantic Rum Runner Plot Involving Two Million Dollar Rings

Boston—Police officers for distributing liquor as bootleggers and herring have been unearthed here. Sixteen persons are under arrest, liquor valued at between \$350,000 and \$450,000 has been seized here and in New York and the existence of a new over land run route from Canada to Maine seaport has been revealed. Two million dollar liquor rings are involved.

The result, it is stated, will be a federal grand jury investigation that will involve possibly 1,000 liquor dealers, rum runners and agents in New England, New York and Canada.

The latest blow delivered by prohibition forces started here Friday with the seizure of \$50,000 worth of liquor on the little stamper Van, operated by the Maine coast and Canada Steamship company. The contraband was packed in boxes with labels for various kinds of fish. Fifteen arrests were made.

A few hours later ale and whiskey valued at between \$300,000 and \$400,000 were seized in New York on the steamers Boston and Herman Winter, both from Boston.

Soon after the seizure on the Van, two customs agents opened a safe in a North End establishment that yielded documents containing the names of more than 1,000 liquor dealers. Examination showed that papers belonged to a ring operating at least three steamers, a fleet of sailing vessels and a flotilla of fast power boats.

### PICK BANKER FOR C. C. PRESIDENT

National Chamber of Commerce Favors U. S. Adherence to World Court

Washington—John W. O'Leary, banker of Chicago is the new president of the National Chamber of Commerce of the United States, elected by the new board of directors at the close of Friday of the chamber's annual convention.

Owen D. Young, of New York and Henry M. Robinson of Los Angeles, members of the American committee which served in forming the reparations Daves plan, are honorary vice presidents, in recognition of "unusual service of international character."

Resolutions were adopted at the closing session favoring American adherence to the world court, declaring that government bureaus should not "harass and annoy business by fitful and curious inquiry into the private affairs of businessmen," and commending the department of agriculture's efforts to reduce wide speculative fluctuations in the price of grain.

### WEEKS WILL REST FOR 3 MONTHS IN ENGLAND

By Associated Press

Washington—Secretary Weeks will spend three months resting in New England, expecting to return to his desk at the war department by September fully recovered from an illness which began April 1. President Coolidge talked with the secretary at his home Friday and was advised that Mr. Weeks had about shaken off the effects of the thrombosis ailment.

### REPORTS MEAGER

Tokyo—Reports from Osaka continue meager regarding the loss of life and the intensity of damage which followed in the wake of an earthquake and fire Saturday that shook the district centering around Toyo-Oka, 80 miles northwest of Osaka.

The vernacular newspapers assert several hundred casualties were reported. An airplane from the Asahi, a Tokyo newspaper, relayed reports that the fire at Toyo-Oka continued to rage late Saturday and the whole town seemed virtually destroyed.

Police at Kyoto report 10 persons dead and many injured in the town of Fumihama where numerous houses collapsed. Kinosaki Springs was reported burning also, and a forest fire was said to be raging near the Springs, which are 39 miles from Kyoto.

The town of Teiyama, near Toyo-Oka, was reported in flames.

### TOWN DESTROYED

London—Dispatches from Tokyo to the Evening News said it is reported the town of Kinosaki was destroyed by the earthquake. It was reported a railroad train had been buried in the collapse of a tunnel near Ashiya. The Kuno silver mine was reported greatly damaged by collapsing tunnels.

### BRUSSELS MAYOR ASKED TO TAKE PREMIERSHIP

Brussels—The king Saturday asked Burgomaster Max of Brussels to form a cabinet to succeed that of Premier Aloys Van Yverre, which resigned Friday. M. Max agreed to attempt to form a temporary business ministry, unaffiliated with any parliamentary political groups.

### CHURCH TAKES FOSDICK AND HIS 3 CONDITIONS

By Associated Press

New York—The Park Avenue Baptist church—the Rockefeller church—after a spirited debate has ratified the action of the trustees in calling to its pulpit the Rev. Harry Emerson Fosdick, modernist.

The congregation by its meeting accepted three conditions laid down by Dr. Fosdick, who for years was the storm center of religious controversy while he occupied a Presbyterian pulpit. Seventeen members out of 400 present dissented.

Dr. Fosdick's conditions were as follows: "That the church no longer insist on baptism. That its membership be open to all Christians regardless of creed. That the congregation build a skyscraper church near Columbia university with living quarters, club rooms and other institutional features."

### ORDER AMPLIFIERS FOR ANTI-EVOLUTION CASE

Dayton, Tenn.—Legal technicalities cleared away for a speedy test of the Tennessee law prohibiting the teaching of evolution in public schools, Dayton Saturday busied himself with the purely physical side of the test.

Tests were being procured to augment hotel facilities. Amplifiers were to be arranged on the court house grounds to assure the anticipated thousands that they might hear the arguments of the country's leading attorneys and anti-evolutionists as they give the case its final boost to ward the supreme court.

### GIVES CHANGE OF VENUE IN KLAN OFFICER CASE

Indianapolis, Ind.—A motion for a change of venue in the cases of L. C. Stephenson, former Ku Klux Klan grand dragon, Earl Klink and Earl Gentry, all charged with the murder of Miss Madge Oberholzer, was granted Saturday by Judge James A. Collins in criminal court.

The trial of the three men had been set for June 2. Removal to another county is expected to delay the trial. Judge Collins directed attorneys for the defense and prosecution to confer regarding the county in which the case should be tried.

### Rich Richard Says:

The latest blow delivered by prohibition forces started here Friday with the seizure of \$50,000 worth of liquor on the little stamper Van, operated by the Maine coast and Canada Steamship company. The contraband was packed in boxes with labels for various kinds of fish. Fifteen arrests were made.

A few hours later ale and whiskey valued at between \$300,000 and \$400,000 were seized in New York on the steamers Boston and Herman Winter, both from Boston.

Soon after the seizure on the Van, two customs agents opened a safe in a North End establishment that yielded documents containing the names of more than 1,000 liquor dealers. Examination showed that papers belonged to a ring operating at least three steamers, a fleet of sailing vessels and a flotilla of fast power boats.

### PICK BANKER FOR C. C. PRESIDENT

National Chamber of Commerce Favors U. S. Adherence to World Court

Washington—John W. O'Leary, banker of Chicago is the new president of the National Chamber of Commerce of the United States, elected by the new board of directors at the close of Friday of the chamber's annual convention.

Owen D. Young, of New York and Henry M. Robinson of Los Angeles, members of the American committee which served in forming the reparations Daves plan, are honorary vice presidents, in recognition of "unusual service of international character."

Resolutions were adopted at the closing session favoring American adherence to the world court, declaring that government bureaus should not "harass and annoy business by fitful and curious inquiry into the private affairs of businessmen," and commending the department of agriculture's efforts to reduce wide speculative fluctuations in the price of grain.

### WEEKS WILL REST FOR 3 MONTHS IN ENGLAND

By Associated Press

Washington—Secretary Weeks will spend three months resting in New England, expecting to return to his desk at the war department by September fully recovered from an illness which began April 1. President Coolidge talked with the secretary at his home Friday and was advised that Mr. Weeks had about shaken off the effects of the thrombosis ailment.

### GIVES CHANGE OF VENUE IN KLAN OFFICER CASE

Indianapolis, Ind.—A motion for a change of venue in the cases of L. C. Stephenson, former Ku Klux Klan grand dragon, Earl Klink and Earl Gentry, all charged with the murder of Miss Madge Oberholzer, was granted Saturday by Judge James A. Collins in criminal court.

The trial of the three men had been set for June 2. Removal to another county is expected to delay the trial. Judge Collins directed attorneys for the defense and prosecution to confer regarding the county in which the case should be tried.

# GERMAN PLANES COLLECT MAIL WITHOUT STOPPING

Germany has devised this ingenious method of collecting air mail. The mail bags are attached to ropes between two poles and the mail pilot drops an anchor in flight and collects the bags. Photo shows the non stop collection made in Berlin.

This photo, taken in St. Peter's at the Vatican, shows Pope Pius praying before the High Altar during the first of the benedictions and canonizations to be held during the Holy Year.

F. C. Berwald, 72 last survivor of the three that escaped from the massacre of Custer's troops by Sioux Indians, lives at the edge of West Point, near cemetery where the body of his dead chief rests.

"Coming a crepper" is not exclusive to the Prince of Wales. Lady Jean Douglas Hamilton narrowly escaped serious injury or death in the Ladies' Nomination Race at Sonning, England when her horse, Admiral, fell, rolling on her, and another rider nearly rode her down.

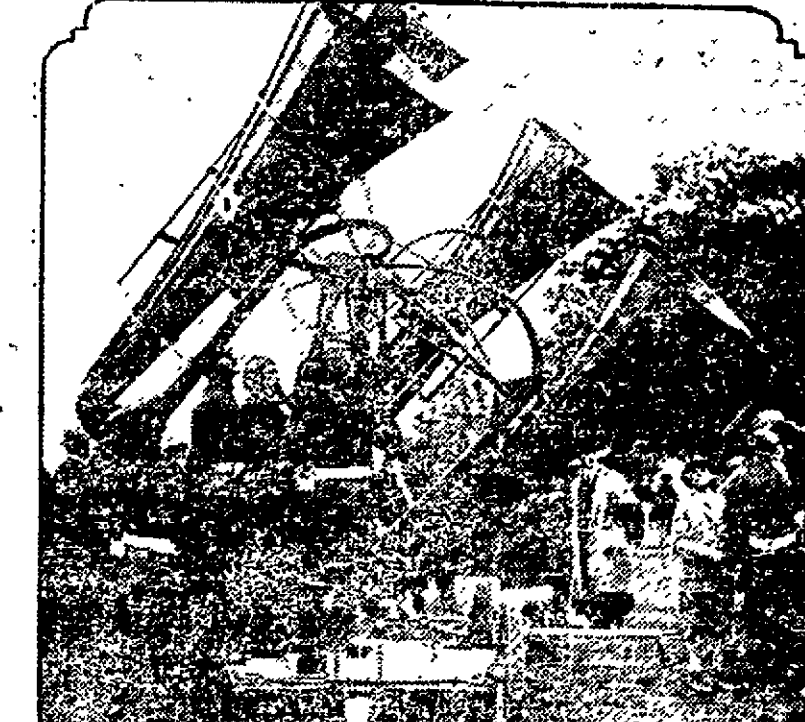

"In the eye," "Play ball," shouts this spring crippled war veterans at the Veterans' Hospital, Tacoma, Wash., were not to be denied the fun of a baseball game. They trundled their wheel chairs onto the field and saw a spirited game underway. At bat you see I. Day of Seattle, while C. J. Holmgren of Minneapolis is behind the plate.

William Koutz, Booneville, Ind., sells eggs. But he found that Spot, his cat was cutting into profits by stealing the eggs. So he bundled the cat into his automobile and dropped him 55 miles from home. When Koutz returned home he found that he had lost his wallet containing \$50 and some valuable papers. About daybreak Spot showed up at home carrying the wallet. Koutz will keep the dog.

John W. Willard of Masontown, Pa., is completing his 48th consecutive term as a school teacher. He is 74 years of age and will give up teaching at the close of this term because of the teachers' retirement regulations in Pennsylvania. He will devote his time to writing.

The "airplane detector" is the latest appliance in defense against invading planes. The apparatus detects the presence of planes and their altitude. It is being demonstrated at Ft. Totten, New York.

## ONLY CONCRETE CAN BE USED TO PAVE 2 STREETS

Richmond and Cherry Streets Must Be Improved With Concrete, County Board Says

Properly chosen on Cherry and Richmond, not only were the streets improved, but the concrete was used to pave the streets. The first explanation was that the concrete was the best material for the streets. The first explanation was that the concrete was the best material for the streets. The first explanation was that the concrete was the best material for the streets.

BOARD SAYS SO

The resolution appropriating the funds for the improvement of the streets was passed by the board. The resolution appropriating the funds for the improvement of the streets was passed by the board. The resolution appropriating the funds for the improvement of the streets was passed by the board.

MAYOR SURPRISED

sum of \$20,000 as aid, had multiplied the number of square yards of pavement in a 12 foot strip through the center of the two streets. The street intersections, with the last quoted price of concrete pavement, the sum was slightly less than \$20,000 but the committee decided to recommend appropriation of the round sum. There are about 17 intersections of the two streets, each 60 feet long.

CONSIDERED CONCRETE

It was rather difficult to learn just why the highway committee had decided to use concrete to pave the streets. The first explanation was that the concrete was the best material for the streets. The first explanation was that the concrete was the best material for the streets.

Whether concrete men had complained to members of the highway committee against the city's specifications requiring an alleged exception to the concrete mixture could not be definitely learned. It was rumored, however, that concrete contractors had said that the 1-2-3 mixture required by the city for reinforced concrete would make the cost of concrete pavement so high that concrete contractors would be at a disadvantage when they submitted their bids. Whether the highway committee intended that only concrete contractors have a chance to get the jobs of building the county aid streets could not be determined.

WANT SOME VOICE

It is understood the board of public works is not opposed to concrete paving but it felt the city should have some voice in selecting the type of paving, inasmuch as the difference in the cost of the various types is very slight.

It was pointed out that the difference between the cost of paving with concrete and the cost of paving with asphalt is only \$1.50 per foot. It would cost the owner of 50 feet lot only about \$450 more to pave his street with concrete than with asphalt. It was explained, and it was possible that property owners would prefer the asphalt to the concrete in view of the very slight difference in cost. The difference between Richmond and Cherry streets was not the same, it was said.

But the county board resolution makes a choice of types impossible. It is held, and unless there are new developments the two streets will be paved with concrete.

John J. Burns of New London, manager of the Wisconsin Casing, Inc., was in the city on business Friday.

## LUTHERANS AT STATE MEETING

Appleton Delegation of More Than 50 Will Back Local Men for Office

More than 50 members of Olive branch society of Mount Olive Lutheran church and the Young People's society of St. Paul Lutheran church went to Milwaukee Saturday to attend the annual state convention of the Lutheran League. Most of them went in automobiles and intended to stay for the evening of Sunday.

Appleton will figure prominently in the convention since two of its young men are proposed for state officers. They are Walter Voecks of St. Paul society, who is in the Fox river valley section's state for secretary, and Herbert Schulke of Mount Olive church, who is proposed for treasurer. Mr. Voecks also is to have a part in the convention program.

An event involving Appleton is a bowling match to determine the state title of Lutheran societies. A team from St. Paul church is to roll against a Racine quintet for the championship.

Convention events include a banquet Saturday evening and a series of meetings Sunday with prominent speakers. Support of the convention of a Lutheran chapel at the University of Wisconsin is one of the business matters to be acted upon.

## CONSIDER PAVEMENT TO BE USED ON LAWE-ST

Several owners of property on Lawe street met at the office of Mayor John Goodland, Jr., Saturday morning to discuss with the mayor and with R. M. Connelly, city engineer, the type of pavement best suited to their needs. The city has bids on bituminous, ribbed, brick, concrete, sheet and lake asphalt pavements. Members of the street and bridge committee who are tabulating the bids for presentation to the council at its adjourned meeting Thursday night, say that the bids are very low, with only slight differences in the prices of the various types. This makes the choice of the type to be used more difficult than it would be if there were greater discrepancy in the prices, and as yet no preference has been expressed by anyone in authority.

The lowest tenders made no decision in their meeting with the mayor and the city engineer, but sought complete information which will enable them to arrive at a choice.

Rubbish Fire

## ROAST FRIDAY, ALMOST FREEZE ON SATURDAY

Weather conditions are a prolific subject of conversation with a drop of 44 degrees registered on the Schlar Hardware Co. thermometer within the past 24 hours and a further drop indicated on the barometer. Friday morning the mercury was 55 degrees above the zero mark. It rose steadily until about 3 o'clock Friday afternoon it reached 88 degrees above and the city sweated in the humid heat. At about 5:30 Friday evening a strong wind rose in the northwest and the mercury immediately began to drop. Early Saturday morning the reading on the Schlar thermometer showed 50 degrees above, but the wind continued and the weather grew steadily colder. At noon Saturday it was 41 degrees above and still falling, and the official weather report promises temperatures near the freezing point Saturday night and Sunday.

## RAINBOW MEN MEET TO ELECT OFFICERS

Election of officers will be the principal business at the regular meeting of the Rainbow Division Veterans Monday evening in Armory G. Several committee reports will be made. The chairman of the committee in charge of the fish fry for the veterans which will be held a week from Sunday at Winneconne will give the final report on the program and preparations for the day.

Plans for the national convention of Rainbow Division Veterans which will be held in Chicago on July 14, 15 and 16, will be discussed. A social hour will follow the meeting.

## JEBE ORCHESTRA PLAYS CONCERT

Minature Symphony Orchestra Will Give Program in Lawrence Chapel

Miss Hildegard Regenfuss and Joseph Winninger will be the principal soloists at the ninth annual concert to be presented at 8:15 Tuesday evening in Lawrence chapel by the Minature Symphony orchestra of Jebel Junior school. The orchestra is composed of 40 musicians and is under the direction of F. H. Jebel.

The program:

"The Magic Flute" (overture) - Mozart  
"Largo" - Symphony from the New World Symphony - Dvorak  
Concerto for Violin, Op. 64 E Minor - Mendelssohn  
Jos. Winninger

"Sweet and Low" (Sings Only) - Barnby  
Volin Choir - Jarnefelt  
a. Preludium - Jarnefelt  
b. Berceuse - Jarnefelt  
Concerto for Violin, Op. 64 E Minor - Mendelssohn  
Hildegard Regenfuss - Luigini  
Allezro non Troppo - Allegretto

Andante Sostenuto - Andante - Allegro non Troppo  
The personnel of the orchestra:  
First violin, Joseph Winninger.  
Hildegard Regenfuss, Elinor Cross.  
Dorothy Haass, Harold Hooihian.  
Doris Martyn, Ralph Wilson.  
Second violin, Walter Bergman.  
Louis Grigorian, Jessie Loomans.  
Violoncello, Amy May, Harold.  
George Stoddard, viola, Melvin Schmelzer, Emil Kamlinist, Walter Harrison, Ruth Wolf Jebel.

Cello, Carl Jebel, Bernard Kastein.  
Joseph Zickler, Mabel Smith.  
Double Bass, William Taber, Gustave Seeger, Camper Weisenberg.  
Harp, Otto Klenfcl.  
Piano, Genevieve Hooihian.  
Organ, Mrs. F. H. Jebel.  
Flute, Prof. John Boxheimer, G. E. Tolson.

English horn, Carl Mullenix, Edward Marsh.  
Clarinet, Herman Krombos, Herbert Johnson.  
Bassoon, Irene Almerman, Karl Karmos.  
Trumpet, Bernice Lee, Donald Witzel, Dave Blosser.  
Trombone, Arnold Lueders, Fred Johnson.  
Horns, Alvin Sturkin, L. Hourman, Tuba, M. Pennington.  
Tympani, Herbert Wicksenberg.  
Drums, Alfred Wicksenberg.

Mary Elizabeth Wentink, who has been visiting at the home of Mr. and Mrs. Edward Wentink for the last eight months, returned Tuesday to her home in Chicago.

## DENGEL WILL BUILD STORE, GAS STATION

Ground has been broken by John Dengel for a store building on W. College near to Appleton State bank and for a filling station at the rear of Dengelbldg. W. College and Superior-st.

Mr. Dengel has not made his plans known concerning the store building. It will be built on the land which now is occupied by an old residence between the tank and his corner business block.

The filling station will be located just inside the sidewalk line on S. Superior-st, with an approach from the street and an outlet on the alley leading to S. Appleton-st. It will be ready for business about the latter part of June. It is understood also that he intends to provide driveway between the new store and the tank so cars may reach the filling station from that way.

## LEGAL NOTICES

LEGAL NOTICE

Sealed bids will be received by this Commission, up to 12 noon June 1st, 1925, for one or more 8000 gallon tank cars of 30-32 gravity dark colored fuel oil, for Diesel engine operation, according to specifications on file in the office of the Water Commission, City Hall, Appleton, Wis.

The Commission desires that full freight allowance shall be made for these shipments, and reserve the right to reject any or all bids.

Signed

## STATE Y. M. C. A. PRESIDENT TO TALK AT DINNER

H. F. Lindsay to Be Principal  
Speaker at Annual Meeting  
of Y. M. C. A.

H. F. Lindsay, president of the state Y. M. C. A., was chosen as the principal speaker for the annual meeting of Appleton Y. M. C. A. on Wednesday evening, June 3, at a meeting of the board of directors Thursday afternoon. The program was completed and invitations will be sent out to all senior members of the local association and its supporters on Monday. A specially-prepared folder containing the activities report for the year ending Oct. 1, 1924 will accompany each invitation. Women are being invited to the 1925 meeting for the first time in association history.

F. J. Harwood, president of the Y. M. C. A., will act as toastmaster at the banquet which is a part of the evening's program. Mr. Lindsay, the chief speaker, and J. G. Rosebush were the only lay delegates from Wisconsin to the Y. M. C. A. national constitutional convention in Buffalo last year and both are members of the national council of the association. The complete program follows:

Singing—Carl S. McKee, leader.  
Invocation—Rev. H. E. Peabody, First Congregational church.  
Banquet.  
Pianolog—Carl S. McKee.  
President's address—P. J. Harwood.  
Address "Mexico"—Judson G. Rosebush.  
Toasts, Appleton's Leadership in State and International Y. M. C. A. Work.—H. F. Lindsay, president of the state Y. M. C. A.  
Singing—Carl S. McKee, leader.

## CHICAGO PROSECUTORS THINK THEY HAVE SHEPHERD CORNERED IN POISON GERM MURDER CASE

The mystery of the "Curse of the McClintock Millions," has been partially solved, in the opinion of attorneys who are prosecuting William D. Shepherd for the alleged murder of his foster son, William McClintock. Shepherd's trial, started May 18, will bring out how the Chicago lawyer plotted to appropriate the McClintock millions, prosecutors hope to show. Following are the salient events in the history of the case:

DEC. 4, 1924—William Nelson McClintock died of typhoid fever. His estate of more than a million dollars was bequeathed to William Darling Shepherd, under the terms of a will drawn by Shepherd a few days previous.

DEC. 17, 1924—Announcement made by seven cousins of William Nelson McClintock of their intention to contest the will.

DEC. 24, 1924—Body of William Nelson McClintock taken from his grave at the request of Chief Justice Harry Olson of Chicago's municipal court, a friend of the McClintock family. Autopsy ordered.

MARCH 3, 1925—Judge Olson accused Shepherd of feeding typhoid germs to William McClintock, thereby causing his death. Charge made before coroner's jury at inquest into McClintock's death.

MARCH 12, 1925—"Dr." Charles C. Faiman, head of the questionable "National University of Sciences," made statement to assistant state attorneys, declaring Shepherd stole typhoid germs from laboratory of his school on south side of Chicago.

MARCH 13, 1925—Shepherd taken into custody and questioned by State's Attorney Robert E. Crowe.

MARCH 14, 1925—Faiman made a confession, declaring he and Shepherd conspired to kill McClintock to get the McClintock fortune.

MARCH 17, 1925—Shepherd and Faiman indicted by Cook county grand jury on charges of killing young McClintock by feeding him typhoid germs.

MARCH 25, 1925—Shepherd's plea for freedom on bonds refused by Chief Justice Hopkins of the Criminal Court. Shepherd's attorneys appealed to higher court.

APRIL 3, 1925—Coroner's Chemist William D. McNally announced finding of mercury in the body of Mrs. Emma Nelson McClintock, mother of William Nelson McClintock, which had been exhumed at Judge Olson's request.

APRIL 10, 1925—Illinois Supreme Court refused Shepherd's plea for liberty under bonds.

APRIL 16, 1925—Shepherd arraigned on charge of murder before Chief Justice Hopkins of Criminal Court.

APRIL 23, 1925—Coroner's jury resumed inquest into death of William McClintock.

MAY 5, 1925—Coroner's jury formally ordered Shepherd and his wife Julia, held to grand jury on charge of murder.

MAY 7, 1925—Mrs. Shepherd appeared in court, and gave bonds for release.

MAY 18, 1925—William D. Shepherd goes on trial on murder charge.

### OUR GRAPES NOT SOUR

Sells, Bulgaria—American grape vines are now being sold here in large quantities. They produce better grapes than the variety grown here for centuries.

The prohibition view is that this will take all the "punch" out of the posters. In other words, the dry doubt if a reproduction of the national capitol with the words, "In disregard for law lies the greatest danger to the republic," will touch the average American's conscience as it would be touched by the scroll, "Demand creates supply," underneath a picture of a bootlegger delivering a bottle of hooch to a customer.

Another complaint is that Andrew's ruling proves him a supporter of prohibition because it's the law, not necessarily because it's prohibition. He may not even believe it's a good law, the drys argue, though in favor, while it remains, of enforcing it. Judging from the Anti-Saloon League comment, his popularity has suffered considerably.

Long ago a woman was rescued from Big Ed's, in the Potomac, near Washington, by her dog, Caesar. In the future of time Caesar died.

Last Mother's Day Potomac river fishermen saw an elderly man row into the stream, drop a wreath on the Eddy's surface, pull ashore and drive off in his automobile.

It was the woman's son, paying his annual tribute Caesar's memory. Her name was nobody seems to know. The story is familiar to everybody acquainted with the Potomac.

## COMPLETE AUXILIARY MAIN TO SOUTH SIDE

Work on the installation of a water main on S. River-st is more than half done, according to Fred Morris, assistant secretary of the water commission. The main will be 3,800 feet in length and will connect the S. Kernan-ave main with that on S. Lawest. The pipe is 8 inches in diameter.

This work is regarded as important because at present there is but one water line to the Fourth ward, and in case of accident that ward would be cut off. There are from 12 to 15 prospective consumers on the new main, but it is doubtful whether all of these will take advantage of the service.

It is expected that the work will be completed next week. A part of the trench will go through a large fill and this caused some delay.

### FOLEY PILLS

John R. Gordon, Danville, Ill., writes: "I have suffered with kidney trouble five years; could not sleep at night and was always tired. I was not strong and had some FOLEY PILLS and after a few treatments I felt better and could work with more ease, became stronger and could sleep better. FOLEY PILLS are a diuretic stimulant for the kidneys—make them more active. Get a bottle today."

Here are the three men who will represent the state at the trial of William D. Shepherd, charged with the murder of William McClintock, which is now in progress. They are above left, J. B. Savage, assistant state's attorney; Dr. Herman Rundesen, health commissioner, and in the inset is shown George E. Gorman, assistant state's attorney.

## TOLD WIFE SHE HAD TO SUPPORT HERSELF

When Emil Hahn of Shiocton, suddenly told his wife, Gertrude, that she could have no more food and money from him and that if she wanted to live she would have to go out and work for it herself. Mrs. Hahn decided that she wanted a divorce. The ultimatum of her husband was delivered on Sept. 25, 1923, and Mrs. Hahn received her freedom Friday morning in municipal court. She also was granted the use of her maiden name, Gertrude Matthews, the household goods of the couple, 200 in alimony and \$50 attorney's fees.

Hahn had accused her of being extravagant, when she really had been using her own money for household expenses the plaintiff testified. At one time he declared he hated her and wanted to be rid of her and announced that he would injure any relative that came to visit her.

The couple was married on Oct. 5, 1907, at Ellington. She is 35 years of age and the defendant, 45.

## Back Achy—All Worn Out?

ARE you lame and stiff; tired, nervous and depressed; miserable with backache and sharp twinges of pain?

Then look to your kidneys! Good health depends upon good elimination. But sluggish kidneys allow impurities to accumulate and upset the whole system. Backache is apt to follow; stabbing pains, depressing headaches and dizziness, getting up at night and other annoying kidney irregularities.

Why experiment? If your kidneys are sluggish, why not use Doan's Pills? Doan's is a harmless stimulant diuretic. Used the world over. Ask your neighbor!

### Here is Appleton Proof:

A. A. Doepker, 233 W. Spring-St., says: "A sharp, cutting pain cut into my back and I could hardly get about. My back became very sore. My kidneys acted too freely and sometimes the secretions were highly colored. Members of my family recommended Doan's Pills, so I bought a box. Two boxes of Doan's cured me."

## WISCONSIN NINTH IN WATER POWER

Nearly Half of Electric Power  
Produced in State Is Gen-  
erated by Water.

Wisconsin no wranks ninth among the states in the amount of electric energy produced by water powers, according to the latest official data compiled by the United States Geological survey.

Water powers in Wisconsin during the year generated 48 per cent of the total electric power developed, while coal-burning plants generated 52 per cent. Final revised government figures show a total electric output of 1,429,751,090 kilowatt hours. Leading water powers states in their order of rank follow: New York, California, Washington, Montana, South Carolina, Michigan, Iowa and Idaho.

Wisconsin is tenth in rank in total production and twelfth in fuel power generation. New York is first in total power production, water power and fuel power generation.

Fuel burning electric plants in Wisconsin consumed 767,778 tons of coal and 5,114 barrels of oil to generate 743,252,000 kilowatt hours of electricity. This means that the average company burned 2.1 pounds of coal to produce one kilowatt hour of electricity. The average for the nation is listed at 2.2 pounds of coal, showing that Wisconsin electric plants are a little ahead of the average in the United States in efficiency of production.

### ONLY ENGLISH POPE

Abbott's Langley, Eng.—This little village is planning to hold a commemoration this summer in honor of its most distinguished native son, Pope Adrian IV. He was the only Englishman who ever occupied the Vatican.

result of past campaigns, the records show. Mr. Jensen and Donald Gebhardt, assistant physical director, will be the instructors.

A new course in life-saving will be tried, in addition to the regular course for beginners. The purpose of the new course is to help persons who already swim to advance themselves, Mr. Jensen said. Both courses are free to the public.

No plans for a women and girls' "learn to swim" class have been made for this year, but this campaign may be held later, Mr. Jensen said.

## Y. M. C. A. TO HOLD TWO WEEKS' SWIMMING CLASS

The two weeks from June 4 to 18 inclusive have been chosen as the dates for the fifth annual "Learn to Swim" campaign for men and boys conducted by Appleton Y. M. C. A. according to A. P. Jensen, physical director. About 500 men and boys and nearly as many women and girls of Appleton have learned to swim as a

## "They're All Out of Step But Jim--!"

That saying is a wonderful example of a Mother's confidence in her son. And it probably really happened.

But sons, no matter how wonderful they seem to their mothers usually know just how near or far from perfect they are. Blind confidence of their mothers does not deceive them—they know if they are square pegs in round holes, even if they cannot know the reasons why.

A savings account is more than a step in the right direction. It is a half-mile head start on the rest of the pack. The son who realizes the value of a savings account, who consistently puts aside a little money each week, usually justifies his mother's confidence in his ability.

Have you a savings account in this bank?

When [Better Automobiles Are Built, Buick Will Build Them

## No. 13

**Q**uestion: Why do you find better workmanship in Buick motor cars?

**A**nsWER: Buick's precision methods are possible because of Buick's great volume. It would be impossible to put such fine workmanship into Buick cars for their price, if Buick built but a few thousand cars a year.

## 2 Periods At Womans Blub Camp

Folders will be issued during the next few days to parents of Appleton Girl Scouts and Campfire girls to tell them about the plans for the summer camp which will be held for three weeks, beginning July 24 and ending August 14. Children whose parents do not receive them may secure them by calling at Appleton Womans club which will be headquarters for registration. The camp will be held at Onaway Island at Chain o' Lakes, Wau-paca, and will be in charge of Appleton Womans club directors. A swimming councillor and life saver will be in the camp during the entire period, and there will be two registered nurses and a councillor to every eight or nine girls. These councillors are to be drawn as far as possible from present guardians and captains. Mrs. Mary Dick, who has cooked on the island for previous camps, will be cook again this year.

The first two weeks of the camp period will be devoted especially to girls of high school age. This means primarily that the evening hour around the camp fire will be taken up with matters and entertainment which will appeal particularly to high school girls. The last week will be given over to grade school age girls, although girls may come for any or all of the time, it will be wise to select the time when the evening activities will be interesting.

Camp activities this year will include nature lore, archery, swimming, rowing, star gazing, hand crafts, outdoor cooking, camp singing, camp dramatics, and hikes. The number of girls which the camp will hold is limited to 60 girls this year so the first girls registered will be taken to the camp. The directors are trying to run a smaller camp this year so that each girl will receive the maximum amount of personal attention and fun.

### PARTIES

Mrs. Jacob Kromer, 802 E. Hancock-st., was tendered a surprise party at her home Friday evening by a group of women in honor of her birthday anniversary. The time was spent in playing cards, those present were Mrs. Matt Gardner and Mrs. J. J. Engleman of Neenah, Mrs. Arnold Schultz, Mrs. Robert Abendroth, Mrs. Robert Wood and Mrs. George Auers.

About 30 persons attended the social and card party given Friday evening by Equitable Fraternal union in honor of John Jansen, who is leaving for Sweden on June 6. Top".....Mary Reineck; "Dance of the Cannibals".....Helen Jeanne Ingold; "The Hunt".....Susanne Jennings; "Sailing on the Lagoon".....Elizabeth Shannon; "Corolla and Pearls".....Betty Meyer; "Ship Ahoy".....Jean Shannon; "Homeward Bound".....Martha Calvert.

Mr. and Mrs. Anton Boehnlein, 126 E. McKinley-st., celebrated their silver wedding anniversary Friday morning when they renewed their marriage vows at a high mass at 8 o'clock at Sacred Heart church. Mr. and Mrs. Boehnlein were married at Neenah and resided in Menasha for five years before moving to Appleton where they lived for 20 years. They have four children, Mrs. Thomas Zeininger of Menasha, Hazel, Lucille and Mildred, Appleton.

Forty-five guests were entertained in the evening. Prizes at cards were won by Peter Dietzen, Mrs. Thomas Zeininger and Mrs. Alvin Johann at schafkopf; Joseph Schultz and Henry Guckenberg at skat.

### WEDDINGS

The marriage of Miss Laura Kromer, daughter of Mrs. George Kromer, Sr., of Kaukauna, and Frank J. Doerfler of Appleton, took place at 2 o'clock Saturday afternoon at Trinity Lutheran parsonage at Kaukauna. The Rev. Paul Oehlert was in charge of the ceremony. The attendants were Mrs. Rosa Kempf and William Haberlin. A reception was held after the ceremony at the home of the bride's mother for immediate relatives. Mr. and Mrs. Doerfler will make their home in Appleton.

Miss Evelyn E. Heins, daughter of Mr. and Mrs. John Heins, Sr., and John E. Wissman, son of Mr. and Mrs. Louis Wissman, were married at high noon Saturday at the home of the bride's parents. The Rev. Theo. Marth performed the ceremony. The attendants were Mrs. W. F. Marsh, Jr., Syracuse, N. Y., sister of the bridegroom, and George Heins, brother of the bride. A wedding dinner was served to members of the family in the French room of the Conway hotel.

Mr. and Mrs. Wissman left for an extended motor trip after which they will make their home at 211 N. Superior-st. The home was beautifully decorated with palms and cut flowers. Mendelsohn's wedding march was played by Miss Laura Zahrt and Clarence Nielsen. Out of town guests were Mr. and Mrs. Harold S. Smith, Mr. and Mrs. Mrs. Clarence Nielsen, Milwaukee; Mrs. W. F. Marsh, Syracuse, N. Y.

Miss Emma Heckel, daughter of Mr. and Mrs. Michael Heckel, route No. 1 Appleton, and Paul E. Hannemann, son of Mrs. Robert A. Hannemann, 218 W. Summer-st., were married at 2 o'clock Saturday afternoon at Zion Lutheran church with the Rev. Theo. Marth performing the ceremony. Miss Esther Fuch of Athens and Erwin Hannemann were the attendants. A wedding supper was served to about 50 persons. After a trip of Chicago, Mr. and Mrs. Hannemann will make their home at 218 W. Summer-st.

## MEMORIAL SERMON TO BE ON PATRIOTISM

Higher patriotism will be the subject of Dr. H. E. Peabody's sermon to members of patriotic societies of the city who will congregate in the first Congregational church at 11 o'clock Sunday morning for memorial services. His text will be Peace On Earth To Men Of Good Will. The regular Sunday service will be held in addition to the memorial address. Seats have been reserved for the various organizations.

The American Legion Auxiliary is to meet at 10:30 Sunday morning at the corner of College-ave and Morrison-st. and is to march in a body to the church. Womans Relief Corps and George D. Eggleston post will meet at Odd Fellow hall at 10:45 and Ladies of the Grand Army of the Republic and Daughters of the American Revolution also will attend the services.

## WILL WED SOON

Miss Gratia Buell Houghton, niece of A. E. Houghton, U. S. ambassador to London, has just announced her engagement to Alan Gillespie Rinehart, son of Dr. Stanley Rinehart and Mary Roberts Rinehart, the famous author. This first photo of them together was taken in Washington, D. C.

## MUSIC SECTION OF CLUB HOLDS ANNUAL MEETING

The Music department of Appleton Womans club is to have its annual meeting Monday afternoon at Happy Hut cottage at the lake. Members are to meet at 2:15 to take the car and in case of rain are to go to the club rooms. A chairman will be elected for next year. Mrs. Charles Bailek is in charge of the program which will follow the business meeting.

## 11 TO BE CONFIRMED AT ST. MATTHEW CHURCH

A class of eleven is to be confirmed at St. Matthew church at the 10 o'clock service Sunday morning. The Rev. Ph. A. C. Froehke is pastor. The confirmands are: Wilbert Krickberg, Harold Buck, Helen Brandt, Leona Brandt, Lucille McCarey, Harriet Sommers, Evelyn Bergman, Lillian Hoffman, Gladys Stubbe, Evelyn Sturtz. The services will open with Sturtz. The services will open with "Jesus, Still Lead On." The sermon subject will be "Be thou Faithful unto Death and I Will Give Thee the Crown of Life."

## THIRTY ENTRIES IN BLIND BOGEY TOURNEY

More than 30 entries were received for the blind bogey tournament which was to be the official opening of the Buttes des Morts Golf club Saturday, and a number of Appleton Merchants donated prizes for the winners. J. M. Spector, jeweler, donated two articles of jewelry from his shop. Walter Hughes gave several articles of men's wear, the Valley Sporting Goods and Appliance Co. contributed sporting articles and the Appleton Wood Products Co. donated a cutting board.

## MAKE FINAL PLANS FOR SHRINE CEREMONIAL

Ambassadors from all commanderies of Knights Templar in the Fox river will attend a dinner at 6:30 Saturday evening at Valley Inn. Neenah, to make final arrangements for the valley ceremonial at Neenah in August. This will be the last meeting before the ceremonial takes place. Elaborate plans are being made, with the expectation that about 150 Knights Templar will be initiated into the Shrine.

## AVIATORS ADOPT CODE AGAINST STUNT FLYING

By Associated Press  
Los Angeles—More than 30 civilian aviators of Southern California have organized and issued a safety code governing flying while carrying passengers.  
Each aviator assenting to the code pledged himself not to engage in stunt flying with any passengers. He also agreed to certain restrictions as to ordinary flying and to the condition of his plane.  
The acceptance of the code does not affect stunt flying by aviators while in the air alone or in motion picture or other commercial work calling for it, but refers only to safety of passengers and to consideration of persons on the ground.

SPARK OF NINE FEET

## Responsibility

If there is any personal or business relationship in which responsibility is a vital element it is that assumed by an executor under a will.

To the executor falls the duty of settling affairs entirely in the interest of others—the heirs under the will. The executor must handle funds for others, with a discretion that must have for its single object the protection of the beneficiaries' interests.

To any one who is now giving, or will sometime give thought to his will and to the choice of an executor, our booklet, "Safeguarding Your Family's Future," should be of interest. Let us send it.

# GIVE PROGRAM FOR KIMBERLY CLASS TUESDAY

Cantata Will Be Given in Connection With Exercises by Graduates

Special to Post-Crescent  
Kimberly—Graduation exercises of the eighth and tenth grades of Kimberly high school will be held at Kimberly clubhouse at 7:30 Tuesday evening. The date was changed from May 22 to 26, so that the new stage scenery could be used.

Tentatively the program is as follows: Welcome, class will, class history, presentation of diplomas, song by eighth grade, Gypsy cantata, "America" to be sung by all.  
The public school boy scout troop now numbers 20. Paul Lochschmidt, leader, has been preparing the boys for entry into the field meet which was held at Menasha Saturday.

Scoutmaster F. F. Jilison is giving instruction in the technical end of scouting in the classroom after school hours.  
Since the troops was organized Mr. Lochschmidt or Mr. Jilison have not found it necessary to solicit members. Scoutmaster Jilison stated that the interest the boy scouts are taking in the activities is greatly strengthening the troop. All boys of troop 2 are now ready for their tenderfoot examination. They have constructed a pole vaulting standards from material donated to them and did the work under the direction of Mr. Jilison in the manual training department of the high school.

Troops Nos. 1 and 2 had contests in every event at Menasha.

The Ladies Aid society of the Presbyterian church will hold a bazaar Thursday, May 28, in the shop next to Sauter grocery store. A business meeting preliminary to the bazaar was held Friday afternoon at the home of Mrs. Oscar Ehke.

The Royal Neighbors held their regular meeting at Kimberly clubhouse Wednesday, May 20.

A picnic was held Tuesday, May 19, at Sunset point by Mr. and Mrs. Oscar Ehke and the Misses Ada Carlson and Olga Kangerman of Kimberly. Mr. and Mrs. Leonard Truesdale of Appleton, and Mrs. M. F. White of Winneconne.

Miss Myrtle Huntington entertained friends from Oshkosh, Winneconne, Appleton and Kimberly Saturday, May 16, in honor of her birthday anniversary. The evening was spent in dancing.

Mr. and Mrs. R. A. Lillierup spent Sunday, May 17, at Oshkosh.  
Mr. and Mrs. Alton Willis and Mr. and Mrs. William Schumaker spent Sunday, May 17, at Green Bay.

Mr. and Mrs. O. Ehke spent Sunday day, May 17, at Winneconne.

Mr. and Mrs. Alford Willis spent last weekend at Crivitz.

Mr. and Mrs. William Lucas and Mr. and Mrs. H. Brown spent Sunday, May 17, at Green Bay.

A daughter was born to Mr. and Mrs. Harold Ford.

## DEPEREPASTOR SPEAKS TO SEYMOUR GRADUATES

Seymour—The baccalaureate sermon for the graduating class of Seymour high school will be given by the Rev. E. Frangon, De Perre, at the Lutheran church in this city at 7:30 Sunday night. The Rev. Frangon, pastor, extends a welcome to all.

Union memorial services will be held at the Congregational church at 11 o'clock Sunday morning. The Rev. Lorenz Knutzen will give the address. The public is invited.

Memorial day exercises here will be in charge of Robert Krause post American legion Saturday, May 26. There will be a parade and programs at Legion square and the cemetery.  
With good weather, the new half mile concrete pavement on Main-st. will be finished soon. Work is being pushed.

**Stops your car quicker!**  
**"I stopped my car in 29 feet going 20 miles an hour!"**

MR. JOE Kosmosky, of 6508 S. Talman Ave., Chicago, Ill., says, "I stop my Checker Cab, which is equipped with two-wheel brakes lined with Rusco Brake Lining, in 29 feet going 20 miles an hour."

That's how safe Rusco-lined, properly adjusted two-wheel brakes will make your car. A lining will pass police inspection if it will stop in 35 feet going 20 miles an hour. Rusco stopped 6 feet quicker! With death or a costly crash just ahead, 6 feet leeway is a godsend.

**Wet weather makes no difference**  
RUSCO is an all-weather lining. It will stop your car just as quickly in wet weather as in dry. Turn the hose on Rusco-lined brakes. Then on any other kind. Water makes

**Your repair man pays more for Rusco than for other brands of lining but he doesn't charge you more.**  
IN GIVING you Rusco—the finest quality brake lining it is possible for the repair man to obtain—he accepts a less profit than if he sold you any other brand. When your brakes need relining, be sure to get the benefit of Rusco's superiority and the conscientious service of a repair man

# 116% INCREASE

## Chrysler Breaking Sales Records While Demand Goes Still Higher

The public's insistence on results that only the Chrysler Six delivers grows more emphatic week by week and month by month.

Mounting sales figures in the weekly reports for the United States show that the Chrysler Six—already a record-breaker in popularity—is soaring higher than ever before.

The latest weekly report registers an increase of 116% in retail sales over the corresponding week of 1924.

The sales for that week were 65% bigger than the very biggest week of 1924.

Furthermore, the last three weeks reported are the biggest weeks of 1925.

April, 1925, shows the largest month's business in Chrysler Six history.

Always mounting to higher and higher figures.

In Illinois, for example, April, 1925, shows an increase of 237% over 1924; Connecticut and the Boston district, including the remainder of New England, 133%; the Atlanta district, including Georgia, South Carolina and Florida, 364%; San Francisco district, including California, New Mexico and Nevada, 89%.

There never has been anything

like it as a demonstration of public approval.

All of which becomes even more amazing, more significant when you recall that in 1924 the Chrysler Six had already established sales records unequaled in a quarter-century of motor car history.

Turn to the chart at your right. It shows you in simple and graphic way Chrysler Six production month by month.

See how the lines shoot up, as Chrysler factory facilities were increased to meet the even more emphatic public demand for Chrysler Six results.

The public knows exactly what it is about. It has long waited for Chrysler Six quality and performance and it is determined to enjoy their advantages—even to the abandonment of cars previously owned, that cost thousands of dollars more than the Chrysler Six.

The public knows that no matter what the make or price, only the Chrysler Six gives them Chrysler brilliance of performance, Chrysler roadability and ease, Chrysler quality, economy and the score of other advantages that belong to this car alone.

We are eager to have you find out for yourself what these Chrysler Six results are.

## SCIENCE PLAYS GREAT PART IN AUTO BUILDING

Few Realize Extensive Chemical and Metallurgical Operations

Most people think of an automobile factory as a place for manufacturing and assembling mechanical units. But few realize the extensive chemical and metallurgical laboratories which the modern factory maintains. This should be of special interest to automobile buyers, for it is in the laboratory that science in all its branches is brought into play to safeguard the quality of the car.

"The thousand of dollars, which we spend for our laboratory equipment, are really spent to assure Chrysler owners years of care free enjoyment and profit from their cars," says W. L. Ledyard Mitchell, vice president in charge of manufacturing of the Chrysler Motor Corporation.

"We maintain a staff of trained chemists and metallurgists who keep a constant check on every piece of raw material purchased for the fabrication of Chrysler cars."

"After the raw material has started through the process of manufacture it is constantly watched and inspected by these specialists to detect any flaw in the workmanship. Samples are taken to the laboratories between operations and there submitted to various tests."

"You can grasp some idea of the vigilance with which we guard Chrysler quality from a few examples."

"We have machines for testing the hardness and the tensile strength of steel, and the depth to which a part has been case-hardened."

"Parts such as the propeller and rear axle shaft are subject to a constant twist or torque in service, therefore we have special and costly machines in which they are subjected to far greater strains than is possible in actual operation."

"We have ultra-violet ray equipment to test the dye in the upholstery material, and instruments which test its strength both with and against the warp. We make a 'pocket' of too material and allow water to stand in it for a long period of time to test its water-proof quality."

"These are just a few examples and there are hundreds of other tests just as exacting and important to the owner."

"It is this extreme care which we exercise in our choice of material together with the thousands of inspections which the Chrysler receives during its course of manufacture that has helped the Chrysler attain the supremacy it enjoys."

## MODERN LIGHTS DEVELOP FROM OLD GAS LAMPS

Automobile Lights Show Great Advance Over Initial Experiments

Let us forget the early days of the automobile and some of the incidents connected with its development, consider for a moment the high-powered, efficient lamps that are used to guide the motorist while driving at night. Those lamps need little description except the statement that they represent but one stage in the evolution of a single automobile accessory that even now is undergoing change.

These lamps which we know so well, were the fulfillment of a conviction of one or two men that electric lighting could be adapted with success to the automobile. The painstaking efforts of these men were duly rewarded. Gas lighting has been fairly efficient, though unpleasantly troublesome. To turn a switch on the dash and have the road flooded with light was indeed a luxury, now but a commonplace.

Who first thought of putting electric lights on a motor car is somewhat in dispute. It seems, however, that the credit might belong to a man in Dayton, Ohio, who first used a carbon filament lamp. Many other individuals and manufacturers had thought of and worked for the same object, and some of them had, even then, visions of a motor which could be used to start the engine, using a storage battery as a source of power.

Mr. T. A. Willard, of the Willard Storage Battery Company of Cleveland, was one of the pioneers on this subject. His experience in building lighting batteries for railway trains gave him a background from which to view the technical problems of the jolting, vibrating motor car and to visualize the obstacles in the path of such a great development. The question was one of lamps and not one of batteries because the battery for the purpose had already been built. Carbon filament lamps because of their fragile filaments and high current consumption did not offer much hope for success, and various other forms of lamps were tried. It remained for the tungsten lamp with the coiled filament to finally serve the purpose most effectively and today that is the type commonly used.

The proper lamp having been found, gas lighting, save in the case of heavy trucks where the vibration is unusually excessive, was deemed to pass out of existence. Another element of the present day automobile electric equipment was born. Some satisfactory way had to be devised to keep the storage battery, which had previously been used only for ignition, fully charged. This was accomplished by the use of a generator with train lighting came to the rescue and a generator, similar in plan to those used on railway cars, was built.

The lamp which required the minimum of current and gave the most light possible, which developed the least heat and required the smallest battery, having been found and perfected, the path was cleared for that next great step—the self starter.

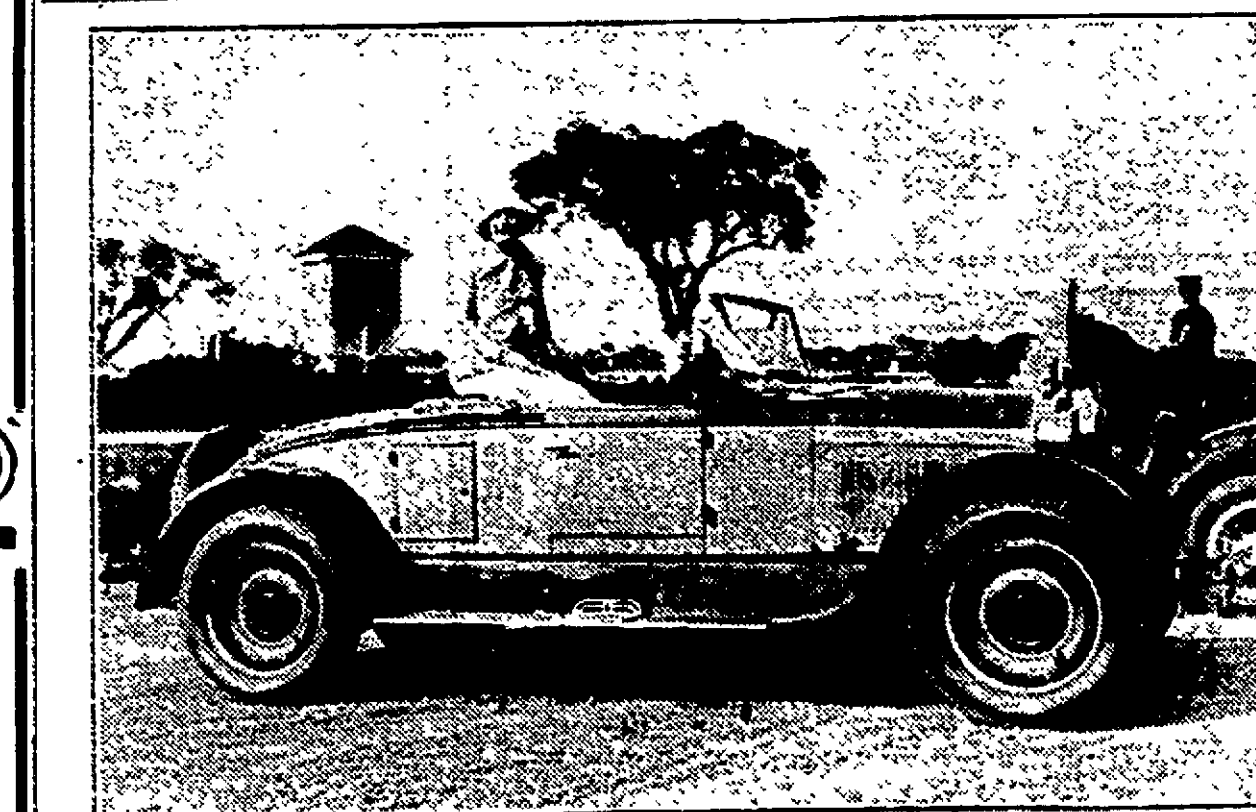

## FORD ADDS PICKUP BODY TO COMMERCIAL CAR LINE

As a delivery unit to meet requirements for equipment lighter than that of the top truck, the Ford Motor Company has just added a pickup body to its commercial car line.

The new body is designed for use on the Ford runabout, taking the place of the rear deck, and is well adapted to all kinds of light hauling and quick delivery. The runabout seat affords comfortable riding for the driver and there is ample room for another passenger. Full protection against inclement weather is provided by the top and side curtains.

The new body is of all steel construction and sturdy built. It is 4 feet, 4 1/2 inches wide and 4 feet, 3 inches long. Sides are thirteen inches deep to the flares, so that loading space is sufficient to meet all demands of light delivery. The end gate is the same as that on the express two body of the top truck and, when partially lowered is securely held in place by chains.

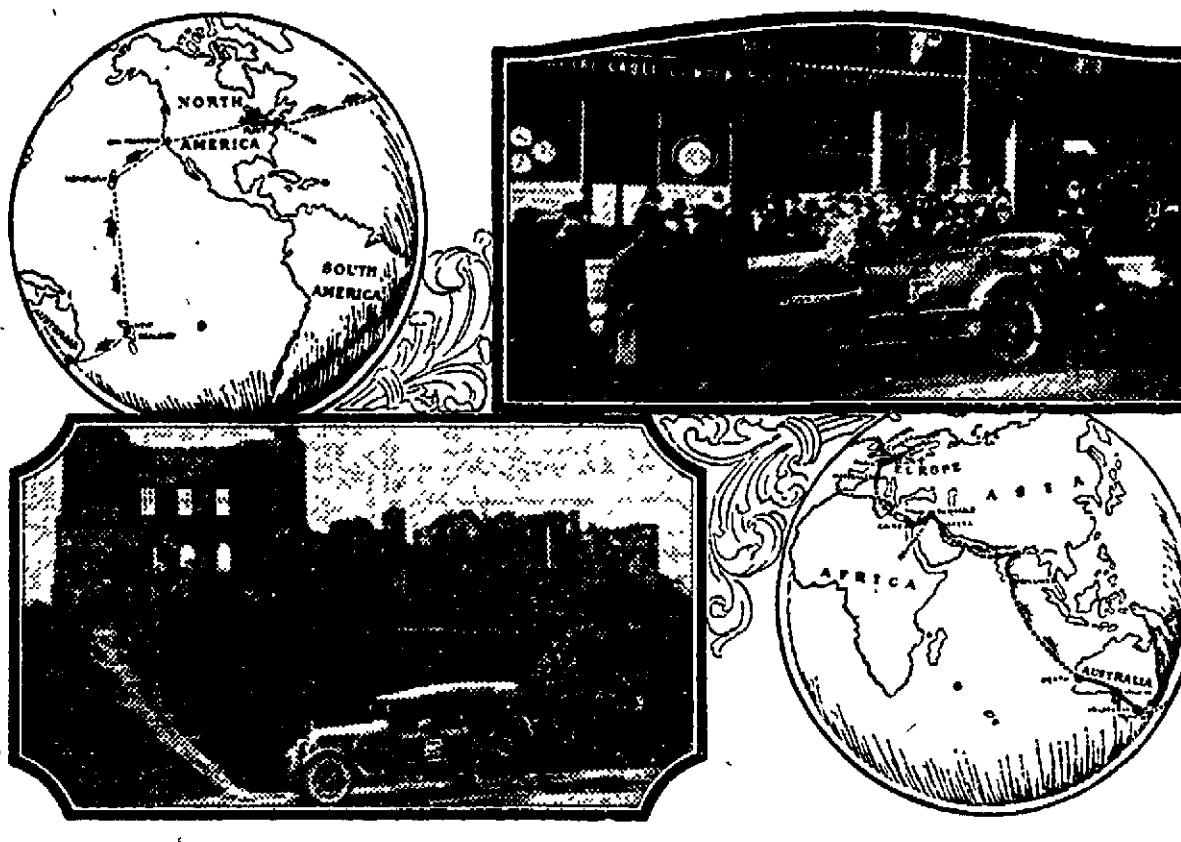

Over 1,000,000 gallons of water would be required to fill the radiator of all Chevrolet cars now in daily use.

THE NEW REO ROADSTER AS SHOWN BY THE APPLETON AUTO CO.

# AUTOMOBILE NEWS

## Buick Loops Globe in Record Run

The above illustration shows the route taken by the "round the world" Buick. The lower left photograph shows Kenilworth Castle, Warwick, England. In the background, the photo at the upper right shows the globe circled in front of the Paris office of the New York Herald. The car is being driven by dealer representatives. It will have had 350 different drivers when it completes its world tour in New York.

A Buick car, which departed unheralded from New York City last December to be driven from one Buick dealer to another in a trip around the world, is nearing the end of its long journey.

The car, a Standard Six Touring model, is strictly "on its own," being unaccompanied by mechanics or special drivers. When it returns to New York City the machine will have been handled by approximately 350 different drivers.

The last difficult leg of the trip has been completed, a long run over the questionable roads across the continent of Australia. The car is now enroute to New Zealand and Honolulu, from whence it will be shipped to San Francisco and driven across the continent through Detroit and Flint to New York.

The trip around the world was conceived to demonstrate that a Buick will travel to the remotest corners of thick earth and that on such a journey it is always safeguarded by service facilities.

The globe-encircling car has made its trip without faltering. Driven from dealer to dealer by dealer representatives only, it has demonstrated Buick's ability to withstand the "man-handling" from hundreds of drivers of various nationalities and degrees of skill.

After coming from the regular assembly line in the factory at Flint, Mich., it was equipped with four spare tires and a shovel. Supplies, including oil, gasoline and water for the long runs over deserts and other uninhabited regions.

After being boxed and sent to New York City it was shipped across the Atlantic to Liverpool, where its land journey started on December 21, 1924. The car was passed from dealer to dealer enroute to London.

It then was shipped from London to Amsterdam. With frequent changes of drivers it passed south through Europe, visiting Brussels and Paris and finally reaching the Mediterranean at Marseilles, France.

On January 20, it was placed on a steamer bound for Port Said, Egypt. From there it was driven south to Cairo. Then the route swung "east of Suez" where the real test began.

Through Palestine and the biblical country, the car proceeded to Beirut. On February 5, it left there for Damascus and Baghdad, accompanying one of the desert convoys of the Royal Transport Company, which incidentally uses Buicks in its desert fleet.

The Syrian desert was crossed without difficulty. The Buick distributed Buick's ability to withstand the "man-handling" from hundreds of drivers of various nationalities and degrees of skill.

In the following letter excerpt:

"The road was terrible in places, being nothing more than a cart track strewn with large boulders. In the run over the Lebanon Mountains the car climbed to a height of more than a mile. After spending the night at Damascus, the 540 mile run to Bagdad was made at an average speed of 35 miles an hour."

"The Mesopotamian distributors took the Buick at Bagdad and drove it to Basra on the Persian Gulf, from whence it was sent to Bombay, India. From there it was driven over indifferent trails across India to Agra and finally Calcutta."

It then went to Ceylon, where the Buick distributors drove it for three days before sending it to Perth, on the southwest coast of Australia, where it arrived April 1. The desert waste of southern Australia between Perth and Adelaide was regarded as the most difficult part of the trip. The distance is something more than halfway across the United States. The long stretch of bad going was negotiated successfully, as was the shorter journey from Adelaide to Melbourne, near the southeast end of the continent. The car since was driven to Albany and then to Sydney, from which point it was shipped to New Zealand.

After completion of the globe journey it is planned to preserve the car as an object of historical interest.

Important Factor Is Preserving Ratio Between Pressure and Strength

The experiments have proven that among the most important factors in the proper treatment of tires is the adjustment of the ratio between the air pressure of the tires and the load to be carried. Miller engineers have made long and comprehensive studies of the proper amount of air to be used with certain loads. The life of the tire is actually lengthened and the service given is improved if these observations of the engineers are regarded.

Overloading is common fault and the disregard for careful adjustment of air pressure in the tires cause all sorts of tire troubles which are not attributable to the construction of the tire but of their use. The engineers and chemists are at work constantly improving the materials from which tires are made and the machinery for their production but all of the principles lack of the construction of the tire are based on maintaining an air pressure commensurate with the load to be carried and the design of the tire.

If the loads are increased the air pressure must be made to conform, otherwise there is an insufficient amount of air in the tires for the load carried and this produces under inflation which causes an unnatural wear on the tires. If the load is too light for the air pressure carried there is not the resiliency or buoyancy to the tires that there should be. This is particularly true of Balloon Tires in which the variation of the air pressure is a matter to be most carefully attended.

Tires like the motor of the automobile respond to good treatment and the good motorist is the one who will heed the best advice as to the care of the engine. He will use his automobile for years and the engine will actually improve in his hands while in the hands of the poor motorist the engine will develop a multitude of troubles. So it is with tires. Proper care actually will give maximum mileage. Considering that the tires carry the load of the car and the contents as well as protecting the whole mechanism of the car against the road blows, there are no more important elements in the operation of the car than proper tire adjustment, inflation and load.

## VETERAN AUTO BUILDER GETS SILVER TROPHY

"Uncle Charlie" Blades Has Been in Industry Since Its Beginning

They took the veteran of the automobile industry from his first job, week in pay him the honor due one who has labored for 25 years in an industry just 25 years old. The veteran accepted a silver loving cup, his eyes so tear dimmed he could not see it, and then the next day was at his post as usual to help make more and better automobiles.

"Uncle Charlie" Blades they call him in Lansing, Mich. He's down on the payroll of the Olds Motor Works as Charles H. Blades, foreman of the force department. Twenty-eight years ago he was called a fool by his friends when he went to work for the man who later formed the Olds Motor Works and helped build the experimental car that was the sample for the thousands of one cylinder curved dash Oldsmobiles that frightened children and animals a quarter of a century ago.

The anniversary of Charlie's 25th year of service, performed without having an accident serious enough to cause him to lose a day's work, and the opening game of the Oldsmobile Fisher baseball league on a brand new diamond constructed on factory property were considered of sufficient import to curtail the day's work at the Olds plant and declare a half-holiday.

More than 3,000 workers of Olds Motor Works and the Fisher Body Company's Lansing plant which supplies Oldsmobiles closed car bodies, thronged the field when J. J. Reuter, general manager of Olds Motor Works, called "Charlie" to the home plate and presented him with the cup, which was inscribed:

"Award of Safety. Presented to Charles H. Blades for 25 years of faithful service to the automobile industry while participating in the success of Oldsmobile since 1897. The oldest employee of the industry without a lost time accident."

Mr. Reuter pitched the first ball, which was caught by John Scott, which was caught by John Scott, which was supervised by Col. Filmore Tyson, veteran police and fire chief of Olds Motor Works, and who was fire

## 9-MILES FREIGHT HAULS MATERIAL TO MOTOR PLANT

Aggregate Energy of Chevrolet in Daily Use Is 22,000,000 H. P.

Every day a freight train nine and one-half miles long is required to haul the raw materials to the Chevrolet Motor company plants and deliver the finished automobiles to dealers throughout the country. An average of 1,046 freight cars are required throughout the year.

The aggregate engine power of Chevrolet cars in daily use is, in round numbers, 22,000,000 horse power. This is power sufficient to operate all the passenger and bulk freight vessels sailing on the Great Lakes.

Factory workers and dealers who gain a livelihood in the building and marketing of Chevrolet automobiles constitute an army larger by several thousands than the infantry, cavalry and artillery commanded by the Duke of Wellington when he defeated the Great Napoleon at Waterloo.

The 1,000,000 Chevrolet cars now running on the streets and highways are driven on an average 33 miles per day. The aggregate mileage of Chevrolet owners is therefore about equal to 69 round trips daily between the earth and the moon.

Chevrolet automobiles in daily use carry over 4,000,000 electric lights—sufficient to place one electric light, or more, in every store, shop and residence in the whole Dominion of Canada.

Chevrolet cars now in operation in the United States could transport, at chief of Louisville, Ky. when Irvin Cobb was cub reporter on the Louisville Courier. Colonel Tyson is the Judge Landis of the Oldsmobile-Fisher factory base ball circuit.

This story hasn't a bit of automotive news in it, yet it is only the reason is that it proves that this so called "infant industry" which now ranks first in the country has outgrown its childhood and is beginning to have traditions.

one time, two armies the size of the American army sent to France during the World War, and still have ample room to carry along nearly a million photographers and war correspondents.

## MOON PRESENTS NEW FOUR DOOR SEDAN AT \$1595

Body of New Car Is Mounted on Regular Series "A" Chassis

A new five passenger Four Door Sedan at \$1595.00 F. O. B. St. Louis, has just been announced by the Moon Motor Car company. The body of the new Moon Four Door Standard Sedan is mounted on a regular Series "A" long wheel base chassis, has four large doors and is finished in two-tone Duco—dark blue below the belt with light blue above.

The equipment of the Moon Four Door Standard Sedan includes four wheel hydraulic brakes new patented steering gear, especially designed for use with balloon tires which are standard on this car, vertical one piece windshield, sun visor integral with top, dome light and a new hood lamp control lever mounted on top of the steering wheel column. The upholstery is done in haze blue Corduroy, the floor being fully carpeted; the hardware is of plain Silver finish.

In speaking of the new Moon Standard Four Door Sedan, Carl Burst Vice-President of the Moon Motor Car company said "There is a large demand for a medium priced DeLuxe job by many buyers both in the Metropolitan centers, and in the territory outside of the Metropolitan centers, this clientele not being satisfied with the low priced coach."

The body of the new Moon Standard Four Door Sedan has the same body structure and strength as that of the Moon DeLuxe Four Door Sedan and our ability to produce such a car at \$1595.00 is due to the fact that we interested the body company in volume production based upon the big demand for a medium priced Four Door Sedan.

Orders for the new Standard Four Door Sedan have far exceeded our expectations. In fact we are unable to fill the rush of orders on this new car."

NICOLET SCHOOL  
WINS FIELD MEETSchool Children Show Plenty  
of Enthusiasm in Annual  
Athletic Contests

Kaukauna—Lots of spirit and enthusiasm was displayed by pupils of Park and Nicolet schools at their annual field meet Friday afternoon on municipal playgrounds. Nicolet school children ran away with the honors, scoring 126 points while Park gathered only 159 points. One relay race between the fifth grade girls from each school ended in a dispute and judges threw it out, refusing to credit either side with the victory.

Judges for the meet were Sylvester Dix, Howard Cohn, sixth grade; Leonard Macrorie, William Taylor, fifth grade; Alex Jacobson, Lester Hale, fourth grade; Karl Farwell, R. Ferguson, third grade.

## KAUKAUNA CHURCHES

Kaukauna—Sermon topics and hours of service in Kaukauna churches for Sunday, May 24 will be as follows:

Trinity Lutheran. Rev. Paul Oehlert, pastor—Sunday school, 8:30; English worship, 9:30; German service, 10:30.

Immanuel Reformed. Rev. E. L. Worthman, pastor—Sunday school, 8:30; English service, 9:30; German worship, 10:30. Both services will be preparatory to Holy communion.

Holy Cross. Rev. N. J. Lochman, pastor—Masses at 5:30; 8:45; 9 o'clock and 9:30.

Brokaw Methodist. Rev. W. P. Hulden, pastor—Sunday school, 9:30; lesson, "Courage in Witnessing for Christ." Morning worship, 10:30; theme, "Christianity and World Life." Special music by the choir. Epworth League, 6:45, topic "What Am I Going to Make of Myself?" Evening service, 7:30, subject, "The Christian Point of View."

First Congregational. Rev. Daniel Woodward, pastor—Sunday school, 9:45; Morning worship, 10:45; Young people, 5 to 7 o'clock. The pastor will conduct Sunday memorial services at the usual hour Sunday. His sermon will be "Shall America Follow the Example and Finish the Work of Washington and Lincoln and Continue to be the Leading Nation on Earth?" There will be appropriate musical selections. The public is invited to this service. Choir rehearsal Friday evening, at 7 o'clock.

WOODWARD GIVES TALK  
AT MEETING OF MASONS

Kaukauna—Thursday evening five auto-loads of Masons drove to New London to participate in a get-together meeting of the Masonic lodge of that city. Among the men from Kaukauna were Otto Fiedler, Charles Tousey, C. S. Webster, Arthur Tate, Hugo Weitenbach, Edward Haas, the Rev. D. Woodward, Joseph Graves, Elliot Zekind, Jerry Mainville, Lyle Webster and Edward Renniecke. Masons attended from Wausau, Clintonville, Hortonville, Shiocton and Green Bay. The Eastern Star served a banquet in the dining hall of the Masonic clubhouse. The Rev. H. E. Freeling, pastor of the First Lutheran Congregational Church, presided at the program as toastmaster. He led in singing of the evening. Representatives from the various lodges gave short talks on Freemasonry. The Rev. Daniel Woodward, of Kaukauna gave the principal address of the evening on "The Important Objectives of Freemasonry Today."

## KAUKAUNA PERSONALS

Kaukauna—R. H. McCarty, chief of police, is confined in the Appleton hospital with a sore eye. It is believed the eye became infected with cold. Mr. McCarty is receiving treatments.

Mrs. William Paschen, Miss Minnie Verbten and Anna Jackel autored to Neenah Friday to visit Miss Ruth Kerzner who is in the hospital.

MILWAUKEE ORDERED  
TO START QUARANTINE

Milwaukee—The state board of health, meeting in Milwaukee Thursday, placed every smallpox "infected area" under absolute quarantine and ordered such quarantine extended to any and all districts in the city which, in accordance with the new regulations, falls within the definition of an "infected area."

The order went into effect late Thursday afternoon, when a copy was served on Dr. John P. Koch, health commissioner of health, who began immediately to outline the districts to be quarantined and reported to enforce the order. Dr. Koch said that it may be necessary to call on the police department for aid and that special guards might be employed to keep persons affected by the order to their homes.

## FOR INACTIVE KIDNEYS

When the kidneys are in need of a good flushing take FOLEY PILLS, a diuretic stimulant for the kidneys, to increase their activity and bring pleasant relief. London Taylor, Dorothea Ter, Iowa, writes: "I can truthfully say that FOLEY PILLS are the best I ever used. I had lots of trouble with my kidneys and liver. I couldn't lift anything my back was so weak. Every morning I was dizzy, could hardly walk, but now I feel fine." Sold everywhere.

## Social Items

Kaukauna—Rebekah and Odd Fellow lodges held a card party and dance Friday evening in Elk hall. Prizes at cards were won by Miss Dora Verbten and Fred Meyer. Consolation winners were Mrs. John Gerhartz and John Bauer.

APPLETON MAN BUYS  
FARM AT BLACK CREEK

Special to Post-Crescent.  
Black Creek—A large crowd attended the auction on the Gust Miskere farm, near Five Corners, Tuesday. The farm has been sold to Frank Lemke of Appleton, who will occupy it Oct. 1. Mr. Miskere expects to move his family to Oshkosh in the near future.

A large number of relatives and friends surprised Mrs. John Witt, Sunday evening, May 19. The occasion was in honor of her birthday anniversary.

Dr. and Mrs. M. C. Monroë, Mr. and Mrs. R. Bishop and Mr. and Mrs. H. Keesler, were dinner guests Sunday evening, May 17 at the home of Miss Elvira Krull, Harris st., Appleton.

Miss Eunice Neckerman, Madison and Mr. and Mrs. J. F. Kraus and son, Merrill, were weekend guests of Mr. and Mrs. J. P. Servatius.

Mr. and Mrs. Roy Grunwaldt and daughter and Mr. and Mrs. William Miller and children, Abrams, were guests at the A. W. Grunwaldt home Sunday, May 17.

Mr. and Mrs. J. A. Koehler and Miss Lucille Akey of Pulaski and Mr. and Mrs. R. H. Sander, were dinner guests Sunday evening, May 17 of Mr. and Mrs. G. H. Peters.

A sorrow was made in the names of the ladies of St. John church, who are to attend a convention at Oshkosh May 25. The delegates are Mrs. John Minkschmidt, Mrs. Jacob Gregorius, Mrs. E. P. Strassburger, Mrs. Fred Pantzloff, Mrs. John Witt, alternates, Mrs. Fred Trams, Mrs. Henry Krull, and Mrs. William Weidhoff.

The Rev. and Mrs. P. Becken attended the funeral of the latter's sister, Mrs. Garland Palmer at Marinette.

Mr. and Mrs. Henry Hoff, accompanied by Mr. and Mrs. William Neumann, Briarton, and Mrs. William Hoff, Appleton, visited relatives at Wausau over last weekend.

Mr. and Mrs. Arthur Diehl, Wausau and Mr. and Mrs. August Melchert and children, were luncheon and dinner guests Sunday, May 17 of Mr. and Mrs. E. P. Strassburger.

Mr. and Mrs. E. P. Strassburger, accompanied by Mr. and Mrs. William Neumann, Briarton, and Mrs. William Hoff, Appleton, visited relatives at Wausau over last weekend.

AUXILIARY UNIT  
OF LEGION GETS  
GIFT OF FLAGS

Special to Post-Crescent.  
New London—American Legion auxiliary, Norris-Spencer unit No. 263, meeting Thursday afternoon at the American Legion hall had two beautiful American flags presented to it by the Henry Turner Relief corps, No. 82.

Mrs. Charley Heath, past president of the corps and Mrs. David Rickaby, president, presented the flags. Mrs. John Rickaby gave the response for the auxiliary unit, and received the flags. A party of ladies from the Appleton American Legion auxiliary were guests.

Delegates were appointed to attend the conference of the American Legion auxiliary of the eighth district, to be held at Wisconsin Rapids, Thursday, May 28. Mrs. Leonard Mankoski was appointed first delegate and Mrs. Henry Homan, second delegate. Mrs. Esther Rashke was appointed first alternate and Mrs. Rolla Loving second alternate.

BOY CONFIRMAND IS  
HONORED WITH PARTY

Special to Post-Crescent.  
Hortonville—Mr. and Mrs. John Dobberstein entertained several relatives Sunday, May 17, at a party for their son Leo, whose confirmation took place on that day. Those present were: Herman Dobberstein, Mr. and Mrs. John Dobberstein and family, Mr. and Mrs. Henry Dobberstein and family, Mr. and Mrs. Emil Dobberstein and family, Mrs. Adeline Heiterhoff and sons, Mr. and Mrs. Ed. Roessler and family of Dale; Mrs. Louisa Peterson, Charles Handschke and family of Mukwa; Mr. and Mrs. Otto Handschke of Mukwa; Mr. and Mrs. Harry Meyers of Oshkosh, and Miss Drows of Winchester.

The funeral of Joseph Unger, 50, who died Friday morning, May 16, was held Monday morning from 8:30 to 9:30 a. m. at St. Peter and Paul church. Mr. Unger had been a blacksmith here for the past three years. He is survived by his widow, four children, Leonard, New London; Francis and Cyril, at home, Sister Frances Xavier, Menominee; Allen, two brothers and three sisters, Andrew Unger, Cranston; Jacob Unger, Clintonville; Mrs. Frank Unger, Milwaukee; Mrs. Joseph Tuscher, New Franklin; Mrs. Isaac LeBan, New London; two grandchildren.

AUTO DESTROYED  
IN GARAGE FIRE

Short Circuit Results in Loss  
of LaMarche Auburn Coach  
on Friday Morning

New London—The local fire department made a run to the LaMarche home, a mile west of this city, at 10 o'clock Friday morning, where a fire which was caused probably by a short circuit in the wires of an automobile, destroyed an Auburn coach and garage.

The total loss was estimated at about \$1,500 and was mostly covered by insurance. An attempt was made to rescue the car from the garage, but failed.

NEW LONDON  
CHURCHES

New London—Services will be held as follows in local churches on Sunday morning:

FIRST METHODIST.

7:30 a. m.—Holy Communion; 9:30 a. m.—m.—Low mass with Holy Communion; 10:30 a. m.—Services with preaching.

MOST PRECIOUS BLOOD.  
The Rev. Otto Kolbe, pastor.  
7:30 a. m.—Low mass with Holy Communion; 10 a. m.—High mass.

200 PUPILS ATTEND  
ALL-SCHOOL DANCE

New London—About 200 students of the local high school attended an all-school dance, in the Armory Friday evening. Music was furnished by the high school orchestra.

ODD FELLOWS CHOOSE  
GRAND LODGE DELEGATE

New London—Ben Schmidt has been elected delegate from the New London lodge of Odd Fellows, to the annual session of the grand lodge of Wisconsin which will be held in Kenosha, June 2 to 4.

C. J. KRAUSE, PIONEER,  
IS DEAD AT NEW LONDON

New London—C. J. Krause, an old pioneer resident of New London, died at his home here at 12 o'clock on Friday night. Funeral arrangements have not as yet been completed.

NEW LONDON  
PERSONALS

New London—Fred La Marche is reported ill.

The Pat Cummings family visited relatives at Appleton Thursday.

2 SICK WOMEN  
REGAIN HEALTH

Through the use of Lydia E. Pinkham's Vegetable Compound. Read their Letters

Valdosta, Georgia.—"I was troubled with a very severe female weakness and was accompanied by some very unpleasant symptoms and with pains in my back, sides and legs. Since taking a treatment of Lydia E. Pinkham's Vegetable Compound, I am better in every way, and the unpleasant symptoms have disappeared. Your medicine is wonderful for nervous, run-down women."

Mrs. L. O. Dasher, R.F.D. 4, Box 14, Valdosta, Georgia.

Relief from First Bottle  
Battle Creek, Mich.—"I had great pains and swelling in my sides, pains so bad at times that I could not do my housework or stand on my feet for weeks and I was in a very nervous condition. In a Cleveland paper I read a letter about Lydia E. Pinkham's Vegetable Compound. I have had great relief from the first bottle and I shall continue its use because I believe and know it helps me. I want to help other women and I am willing to answer letters."

Mrs. C. E. Palmer, 247 Champion st., Battle Creek, Mich.

TWO H. S. STUDENTS IN  
LAWRENCE SPEECH TILT

Special to Post-Crescent.  
New London—The local high school entered two contestants in the Lawrence college speaking contest at Appleton Thursday, Kenneth Popkey in oratory, and John Mulroy in extemporaneous speaking. Twenty contestants, from all parts of the state, entered the oratorical contest, and sixteen in extemporaneous speaking.

Although Popkey failed to win a place in oratory, Mulroy was out in the afternoon contest, and entered the finals in the evening, but lost in that contest.

Members of the Burdick club and a few other guests gathered at Mrs. Leonard Mankoski's home Thursday evening in honor of her birthday anniversary. Five hundred was played. Mrs. Bert Haskell and Mrs. Rose Dawson receiving favors.

Woman's Relief Corps held its regular meeting at Odd Fellow hall Friday afternoon. All members are requested to meet at the hall Sunday morning at 10:30 and march to the Congregational church for memorial services.

Members of the Woman's Relief Corps and the American Legion auxiliary will meet at the American Legion hall Wednesday and Thursday afternoons of next week to make wreaths for soldiers graves for Memorial day.

 Mrs. Sam Whittington spent Tuesday at Clintonville.  
 Mrs. Sam Gordon and daughter Ruby, Jane of Chicago, arrived here for a visit with her parents, Mr. and Mrs. J. Whittington.  
**Dance at Stephenville Auditorium, Tuesday May 26.**

## STAGE AND SCREEN

**ZANE GREY FILM RECREATES WEST OF 18 YEARS AGO**  
 As radically as a covered wagon differs from an automobile, so a mid-western town of 1876 differs from one of the present day.  
 No section of the entire world has changed so much in the past fifty years as have the towns of Kansas, Missouri, Colorado, Montana and Wyoming, as motion picture directors have discovered to their cost when endeavoring to recreate for the films some vanished center. The sleepy, freightless, posts of the old west are today bustling cities.  
 For the production of Zane Grey's "The Thundering Herd," which William K. Howard directed for Paramount, an exact replica of an old-time trading post was built.  
 "This episode of the picture was filmed on Lookout Mountain, a few miles back of Hollywood, Calif., where the cliff falls away from the road at an angle of nearly sixty degrees. After the scene was completed it took Buffalo Bill, Jr., and his companions nearly two hours to get back to the point on the road above, from which he had made the plunge, to photograph additional scenes called for in the scenario. It being impossible to ascend the steep slope and the return necessitating a detour of several miles.  
 It was directed by Richard Thorpe, and is adapted from a story by Christopher B. Booth, which originally was published in the Western Story Magazine under the title, "Buckling The Big Four."  
 Jean Arthur, who has already won

talk about for days thereafter, by his wonderful fight with Frank Ellis, who plays the part of an escaping bandit, in a wagon that plunges down a cliff, side nearly 500 feet from top to bottom.  
 Every foot of the hair-raising plunge is shown in the picture, and how the struggling pair escaped death or serious injury is as much a mystery to those, who were on the location with them, as it will be to the audience.  
 This episode of the picture was filmed on Lookout Mountain, a few miles back of Hollywood, Calif., where the cliff falls away from the road at an angle of nearly sixty degrees. After the scene was completed it took Buffalo Bill, Jr., and his companions nearly two hours to get back to the point on the road above, from which he had made the plunge, to photograph additional scenes called for in the scenario. It being impossible to ascend the steep slope and the return necessitating a detour of several miles.  
 It was directed by Richard Thorpe, and is adapted from a story by Christopher B. Booth, which originally was published in the Western Story Magazine under the title, "Buckling The Big Four."  
 Jean Arthur, who has already won

many admirers by her work in "Fur and Feathers," with Buffalo Bill, Jr., the second of the popular series of thrills-action melodramas, of which "Bringing Home The Bacon" is the fourth, plays the part of Nancy Norton, the girl around whom much of the action is shown.  
**HOMELY AMERICA GLORIFIED IN VIDOR'S "PROUD FLESH"**  
 Old world culture pitted against new world democracy with a girl's heart weighing in the balance. This is the basis of the story of "Proud Flesh," a Metro-Goldwyn-Mayer production directed by King Vidor, which is showing at the Elite Theatre for the last time tonight.  
 Eleanor Boardman gave a brilliant portrayal as the girl in the case, whose heart was torn between an American in overalls and a Spaniard in a dinner jacket. Pat O'Malley, as Patrick O'Malley, the American plumber, and Harrison Ford, as the suave Spaniard, made the contrast between the go-getter and the romantic aristocrat a source of merry delight.  
 The supporting cast includes Priscilla Bonner, Rosita Marstini, Solin, Tricie Friganza, William J. Kelly,

Evelyn Sherman, Margaret Seldon, George Nichols and Lillian Elliot.  
**THE SOCIAL CODE**  
 Viola Dana in her latest Metro offering, "The Social Code," is the featured attraction at the Elite Theatre Sunday. The new photoplay can be heartily recommended as thoroughly worth while and one that film fans will not want to miss.

"The Social Code" is a modern society drama, with numberless thrills, highly dramatic scenes, elaborate sets and enacted by a cast that could hardly be improved upon. It was adopted by Rex Taylor from Ruth Welman's story, "To Whom It May Concern," and directed by Oscar Apfel.

was adopted by Rex Taylor from Ruth Welman's story, "To Whom It May Concern," and directed by Oscar Apfel.

## Beautiful—Durable—Inexpensive

For about half what you expect to pay for a rug, you can buy a  
Kimark Rug—lovely in design and color, remarkably durable in  
weave and texture, soft in finish, smooth and noiseless under foot, wa-  
terproof, fire resisting, and impervious to moths. These beautiful  
rugs are finished on both sides, giving double wear. They are suit-  
able for every room in the house, and so low in price that they can  
be used even for porches and summer cottages. Ask for them in the  
stores.

Manufactured exclusively by  
NATIONAL FIBER TEXTILE COMPANY  
New York Chicago San Francisco  
Mills: Neenah, Wisconsin

## FARM BUSINESS IS IMPROVING, BABSON AVERS

Implement and Fertilizer  
Companies Are in Much  
Stronger Position

Babson Park, Mass. — Roger W. Babson, statistician and student of business conditions, issues the following official statement relative to the farm situation. Considering the complexity of various reports pro and con, Mr. Babson's opinion on the subject is very opportune at this time. His complete statement is as follows:

"The farmer continues to be the principal subject of discussion in the Pullman smokers. There still are those who feel that he is a pampered pet, and should be bled no longer. They believe that the only law worth while is the law of supply and demand, and that all other laws are useless and should be wiped off the statute books. Then there are those who believe that the farmer is the basis of all prosperity and should be subsidized and maintained like the Army or Navy. Both of these positions are extreme.

"The simple fact is that farming is a business and, like any other business, should be allowed to work out its future through the survival of the fittest. The same as must the automobile, textile and steel business. Farming is subject to the same temptations and opportunities as other lines, and the farmers should be willing to suffer or prosper according to their industry, judgment and courage. On the other hand, it should be recognized that the farming industry is the greatest of American industries and that the prosperity of all of us is vitally dependent upon the prosperity of the farmers. Nearly 30,000,000 people in the United States today are direct-ly or indirectly dependent on farming. Hence, when the spring comes around each year and the millions of acres are turned up and planted to wheat, corn, rye and a hundred other crops, it should be a solemn occasion and one worthy of the profoundest respect and attention.

"The prosperity of the farmer is dependent upon three things: (1) Satisfactory weather conditions yielding a good crop; (2) A fair price, not so high as to result in over-production the following year, and not so low as to make it impossible for him to get a fair recompense for his labors; (3) A normal labor and commodity market in order that his operating expenses may not be out of line with his income. For the past few years the farmer has had fairly good crops, but the price of farm products has been abnormally low and the cost of labor and supplies abnormally high. Last summer this situation began to right itself, and wheat went to \$1.38 per bushel, corn to \$1.29, and rye to \$1.50. In the closing months of 1924, since January and February, cost markets have declined, but there has been no such slump as many people are prone to represent.

"The farmers of the country are today distinctly more prosperous than they were a year ago. Wheat is still about 84 cents higher, corn 38 cents, and rye 57 cents higher than a year ago at this time. The April exports will show that the foreign demand for cereals is still large and that the same thing applies to the foreign demand for cotton. Statistics indicate that the world needs an American cotton crop each year of from 13,000,000 to 14,000,000 bales, which requires an American acreage of at least 40,000,000 acres devoted to cotton. It should, however, be remembered that cotton is different from wheat. When there is an extra large crop of cotton an increased demand can easily be stimulated by getting people to use the occasion of replenishing their cotton stocks. The demand for wheat, however, cannot be easily stimulated, as people will only eat so much bread, and as they become more prosperous tend to cut down rather than increase their per capita wants. However, as above stated, the exports of both cotton and wheat are thus far running ahead of last year. Statistics clearly show that the farmers of the country are in a distinctly better condition than they have been for some years.

"The farmers' improved condition is evidenced by the reports on various allied industries. For instance, the agricultural implement companies which have been in a precarious position since the war and have been obliged to charge off tremendous losses are gradually coming back to their own. The stock of the International Harvester Company, which sold for \$85 a year ago, is now selling at about \$107. The fertilizer companies are also showing the effect of the better farming situation. American Agricultural Chemical stock, which was selling at \$8 a year ago, is now selling at about 20, and Virginia Carolina Chemical, which was selling at 1 1/2 a year ago, is now selling at 4 1/2. The Virginia Carolina Chemical first mortgage bonds, which have been in default about two years and which went down to about 50, are now selling at 92.

"The recent figures on automobile sales reflect an improved condition in the farming situation. The great fluctuation in the new car sales is due primarily to farmers' purchases. The previous high figures for sales were due to purchases by the farmers; the falling off in sales last year was due to the farmers dropping out of the market; and the increased sales at the moment are due to the farmers coming back again. The sales of the mail order stores such as Sears Roebuck Company, Montgomery Ward Company and others show similar results. 1925 will see no boom in the farming industry, and the farmers themselves should not wish such a boom, as they would ultimately suffer from it the same as they suffered from the high war prices. On the other hand, the farmers' condition is better today than it was a year ago, and 1925 will be for the farming industry a distinctly better year than 1924, provided the farmer doesn't plow too much land and again kill the goose that lays the golden egg.

"Although general business is not as good as the optimists hoped it would be, the conditions are better in almost every line than they were a year ago. The coal, woolen, shoe and two of three other industries which are especially depressed are exceptions to the rule. Building is continuing on a considerable scale. Lumber shipments are still large; the steel and iron industry is righting itself; copper producers are feeling better; and most of the basic industries are in a stronger position than they have been for some time. This is especially true of the railroads and some of the large industrial plants which have been plowing back large sums of money in their industries, eliminating the water, and producing the good will items. The quietest situation in the labor market is also a hopeful sign, notwithstanding the big drive for new members which labor is today about to initiate. Incidentally, this drive is very significant and shows that even membership in labor unions is subject to the same law of supply and demand

## Railroads Furnish Key To State Of American Trade

BY JOHN T. FLINN

New York — The position of the railroads is the most characteristic thing in American business today, and if any business man will understand this he will have a clearer understanding of the phenomena in business which are puzzling others. The key to ultimate business adjustment is reduced production and operating costs. And this readjustment is going along grimly in industry. At times it throws things a little out of joint. Sometimes it gets seriously interfered with. In the meantime all the average observer looks at is the surface indications of business, and his observation is badly confused by the grumbling of the people who are being hardest hit. He sees and hears little of those who are quietly moving along toward better things.

The railroads, notwithstanding lower gross receipts, have been able to make better net showings. And the reason is to be found in the more intelligent direction of the operation of the roads and in the lowering of the costs of doing business. That is the whole story. It is so simple that it seems to amount to nothing. But what is going on in the railroads is going on everywhere and in the end it will make itself felt.

While prices have been continuously declining, there has come a check in the last week.

NO NEED FOR ALARM

With the decline in prices, money rates have become easier and the basis of bank credit has gained in strength. The increase in reserves, however, and the decrease in deposits and circulation, which have taken place of late, reflects diminishing business. It is an element of strength in the situation that the present moderate decline in business was preceded by no undue financial expansion, but began while the basis of credit was still unimpaired. This insures against any severe financial strain and indicates that conditions are favorable to an early recovery in business.

Clearly there is no occasion for alarm. Manufacturers and merchants need merely proceed with caution until equilibrium between production and sales is restored.

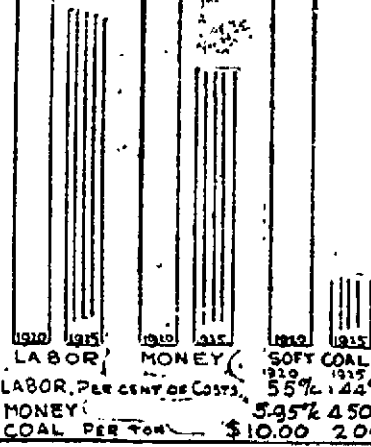

It should be clearly recognized and frankly admitted that in general the trend of business has been downward since February—in spite of the present expansion in some lines such as automobile manufacturing. The best way to meet such a situation is not to ignore it and assume a false optimism, but neither is pessimism warranted. It may be fairly said that the readjustment of business promises to be effected without any drastic setback and that the current downswing will carry us but little below a normal level of stabilization. Hard work, careful planning, insistence on economy in production and distribution, and reasonable caution, will get results.

READJUSTING STEEL TRADE

Each of the barometers of the steel trade moved downward in April. As the steel trade is so fundamental, these barometers have value in forecasting the general trend of industry. The price of heavy melting steel

## WHY THE RAILROADS CAN MAKE ECONOMIES.

Costs now and in 1920.

scrap is apparently at bottom levels, but the market trend has not yet clearly turned upward. The unfilled orders of the Steel Corporation decreased in April more than in March, and judging by past performance, it may be concluded that no upturn in the iron and steel industry is yet in sight.

The three-month average of new business enterprises continued the recent advance and accordingly no change in the upward trend is yet shown in the current. The actual number of new enterprises in the single month of April, however, decreased, and the capitalization of new enterprises, after eliminating the merely seasonal variation, also showed a decrease for the month. This indicates that business men now have a better realization of moderate prospects for the next few months.

The average rate on the best commercial paper advanced slightly in April as compared with March. The rate, however, was only about the same as at the low point in 1922.

BUILDING IMPROVES

Building activity showed some recovery in April, the gain being partly due to a heavy volume of construction of public works and utilities. The figure for April broke the record. Decreased activity is reported from New York State and northern New Jersey, and from the Southeast. Gains occurred in the other sections, notably in the Central West and in the Pittsburgh district.

The value of contemplated new work decreased from March.

The checking of the advance in money rates is favorable to construction activity, but it is very improbable that the record level of early 1924 will be reached this year. Probably April will prove to have been the peak for 1925 building.

The current high level of building activity and the relatively low level of interest rates are both helping to sustain iron and steel consumption and industrial activity.

## CELLUCOTTON IS PRAISED BY U. S. BUREAU EXPERTS

Contains Less Non-cellulose  
Material Than Cotton, In-  
vestigators Say

Manufactured originally during the World war to relieve the cotton shortage, cellucotton, the product of the Cellucotton Products Co. of Neenah has fulfilled its purpose so well that instead of losing popularity when cotton became more plentiful, it has gained almost universal favor and is used in nearly every country in the world. Its main use, that for which it was manufactured originally, is first aid kits and surgical dressings. For these purposes it was adopted by the army after rigid tests, but before these tests were made the United States Bureau of Standards reported to the Medical corps as follows:

"The fibre from which cellucotton is manufactured is radically different from that used in ordinary absorbent cotton. Although cotton in its natural state is the purest form of cellulose known, it is subjected only to very slight chemical treatment before its use and consequently contains from 8 to 10 per cent of impurities. Wood on the other hand, is subjected to such drastic treatment in the cooking processes that the end product or pulp used in cellucotton contains less of non-cellulose material than cotton itself."

These and other advantages have resulted in the adaptation of cellucotton to many and various new uses, so that the demand on the Neenah mills is increasing constantly. New machinery has been installed in the Neenah mills and the Niagara Falls mill of the Kimberly-Clark Co., of which the Cellucotton Products Co. is a subsidiary, to keep up with the demand, and also in the new mill recently completed at Neenah.

Recently a new firm was incorporated in Neenah for the manufacture of articles made of cellucotton. Among these are pads for cleaning makeup, cream and powder from the faces of actors, actresses and others who use cosmetics, pads for the use of barbers while shaving, absorbent pads or the use of doctors in hospitals, padding to be used in packing candies and other fragile goods, and a number of other novelties requiring the qualities of the cotton substitute.

A miniature machine has been installed at the cost of many thousands of dollars, merely for the manufacture of samples to be shipped to every part of America and to several foreign countries. This calls a considerable expenditure, but as an advertising medium it has been found profitable, and the use of cellucotton products promises to become universal.

## 5,000,000 WOMEN

Have adopted this new way in personal hygiene

In fairness to yourself you should know about this new way in personal hygiene—employed today by 5 million women. At least you should try it.

This new way is Kotex. It is a super-absorbent sanitary pad made of Cellucotton—5 times as absorbent as cotton. It absorbs instantly 15 times its own weight in moisture.

Each Kotex pad is an active deodorant. Impregnated with a new secret disinfectant. Kotex is easily disposed of—just like a piece of tissue.

Packed in sanitary sealed packages of 12—Kotex comes in 2 sizes: Regular, and Kotex-Super (extra large).

Get Kotex Deodorized, in the blue box with white stripes, at most stores.

CELLUCOTTON PRODUCTS CO. NEENAH, WIS.

## KOTEX DEODORIZED

## NEED GODLINESS TO SAVE YOUTH WOMEN ARE TOLD

Backus Speaks at Eighth District Womens Clubs Convention at Waupaca

Waupaca—Get back to God and live with the reverence of the pilgrims if you would improve the youth of today, Judge A. C. Backus of Milwaukee, declared in his address at the convention of the Eighth District Federation of Womens clubs at Palace theater Thursday evening. The federation has had a busy session here since its opening with some function in progress almost every hour.

Initial element of the city of Milwaukee, waupaca Sentinel addressed an audience that taxed the capacity of the theater. He chose for his subject, Youth, America's Greatest Asset. No greater problem exists today than that of the rearing of the American youth, said Judge Backus, in relating his experiences of twenty years in dealing with the criminal.

Judge Backus, now editor of the Milwaukee Sentinel, while sitting upon the bench this same problem confronted him daily.

In trying to find a way to make the youth of today be better citizens of tomorrow, the speaker said it was the duty of the parent to get back to God and live with reverence as the pilgrims and our forefathers did in the day of the thirteen colonies.

The speaker related the fact that 94 per cent of 5,200 persons granted parole from sentence given during the last year's career on the bench made good. This he claimed proved that another chance instead of scorn made better citizens. Great stress was laid on the fact that more comradeship should exist between father and son. Above all things parents as well as everybody should give the question of America's youth thought and study.

The judge said he was pleased that the greater part of the womanhood of the country was forever trying to uplift and assist the youth of today. Women's clubs have always been instrumental in meeting the greatest problem of today, he said, which the speaker believes as does President Coolidge is the need of doing something for youth.

**BAND PLAYS**  
The program at Palace theatre also included music by Carrol, Waupaca Band, Charles T. Carrall, director. The musical numbers were: "The Masquerade" (King); "I Love You" (Verdi); Miss Anne Suhr at the organ; solo, "Life" (Curran); Mrs. W. LaBuddie; Spanish suite, "Don Quixote" (Safra); "A Spanish Village," "Sancho Panza," "Dulcinea," "Don Quixote," patrol, "Spirit of America" (Zamenick); solo, "Recessional" (DeKoven); Roy Christensen.

Thursday evening the independent Order of Odd Fellows of Waupaca district held a convention in the lodge rooms of the local order. Representatives of lodges of Weyauwega, Jola, Amherst, Ogdensburg, Almond, Stevens Point and Milwaukee were present. A business meeting held at 8 o'clock resulted in the selection of new officers for the district. They are: Frank Larkee, Weyauwega; president; M. T. Tarrill, Stevens Point; secretary; W. H. Laubs, Weyauwega; warden. Weyauwega was selected as the place of the next convention to be held in the fall. The Waupaca lodge put on the second degree and the balance of the evening was spent in a social way.

Friday, May 29, will be a big day for the rural school boys and girls of Waupaca. The annual school conference will be held in connection with the county commencement for all rural graduates. The commencement part of the day's program will be for one and two-room school graduates and all are expected to be present to receive their diplomas.

**CONTESTS PLANNED**  
The literary contests, spelling, vocabulary, and dictionary, will begin promptly at 9:30 in the courthouse. Teachers who have contestants must be present with their pupils on time.

Athletic contests must also be on hand at 9:30 in the courthouse, at which time weighing and entering of contestants for the various events will begin in order that the contests may begin promptly at 11 o'clock. City park will be the scene of the athletic contests which will close at 3:30 in the afternoon at which time all graduates must meet with their teachers in the courthouse. Miss Bannach wants all graduates lined up by towns so as to give them instructions regarding the commencement exercises which will be held in Palace theater promptly at 8:30.

George Dick, state inspector from the department of public instruction, will speak to the 250 boys and girls who will receive their diplomas on that day. Three or four other talks and musical numbers will be given. This program will probably last about an hour and a half. Parents, relatives and friends of the graduates are invited to be present. Admission to the declamatory, commencement and athletic exercises will be free. In order to accommodate all parents, relatives and friends of the graduates, it has been necessary to issue complimentary tickets, which may be had in the county superintendent's office between 9:30 and 12.

**EVENING PROGRAM**  
The declamatory and singing contests will begin promptly at 8 o'clock in the evening. Nine different centers will be represented.

The athletic contest will be held in the City park as above stated. All who are interested in the work that is being done by rural schools are invited to be present. The Rural School league will sell refreshments in order to raise sufficient money to defray expenses.

Sunday, May 24, the local lodge of the Knights of Pythias will attend church services at 11 o'clock at St. Mark church, this being memorial Sunday of the order. Father Du Maine is a member and will preach the sermon, which is to be appropriate.

## RABEHL AGAIN IS HEAD OF APPLETON DISTRICT

C. F. Rabehl was stationed as presiding elder at Appleton for another year at the sixty-ninth annual session of the Wisconsin conference of Evangelical churches which opened at Madison Wednesday. Bishop L. H. Senger of LaMare, Iowa, presided at the conference. The Rev. W. A. Raddatz was reelected presiding elder for the term of four years. Other presiding elders and their stations are: the Rev. G. F. Kleckhofer, Milwaukee district; the Rev. C. E. Mayes, Madison district; the Rev. P. Schneider, Fond du Lac district; the Rev. W. A. Raddatz, Eau Claire district.

## THOUSANDS MAY SEE DEDICATION OF NEW BRIDGE

Public Is Invited to Banquet in Honor of Opening, Committee Says

Participation by thousands will be possible at the dedication of Cherry-st bridge Tuesday to the soldiers and sailors, judging by the final plans made by the arrangements committee at a meeting at the city hall Friday afternoon. Amplifiers will be furnished by Irving Zuelke so all that is said and all the musical selections will be plainly heard.

The banquet at 5 o'clock in the afternoon at Conway hotel is to be open to the public. Officials from Outagamie and Winnebago counties and members of the state highway commission will be guests. All others who want to attend are expected to place their reservations with the hotel management by Monday night. The charge will be \$1.25 a plate. Mayor John Goodland, Jr., will preside and the principal address will be made by M. W. Torkelson, secretary of Wisconsin highway commission. Festivities will start at 4 o'clock Tuesday afternoon. Appleton city officials and committeemen will meet the visiting officials at W. Foster and S. Adams-sts and escort them to the bridge for an inspection. The banquet will be the next event. Officers of the chamber of commerce, Appleton Womens club, Grand Army of the Republic, United Spanish War Veterans, the American legion and civic organizations are given a special invitation to be present. Each is to pay for his own dinner. The program at the hotel ends at 7 o'clock.

Formal dedication of the bridge will take place in the evening, and it is expected that thousands will be on hand to witness the ceremony. The parade of bands and patriotic societies will start from the downtown section at 7 o'clock and the program will be held after their arrival at the bridge. Dr. J. A. Holmes, pastor of the First Methodist church, will present the bridge to the veterans of the wars and one of their number will give the address of acceptance. A band-concert, fireworks and a pavement dance will follow. A liberal display of fireworks will be sent under the supervision of a representative of Fair Fireworks Co.

Mayor John Goodland, Jr., has ordered the bridge and adjoining pavements finished and cleaned for the occasion. No traffic will be permitted on the bridge after 4 o'clock and until the exercises are finished. A water carnival and aquatic decorations also are being arranged. Autoists will be asked to park their cars at Pierce park to avoid congestion at the bridge.

**GOSPEL TEAM CONDUCTS SERVICES AT NEENAH**  
The mens' gospel team of Appleton Y. M. C. A., led by W. E. Smith will go to Neenah Sunday where the members will conduct evening services at the Baptist church. George F. Werner, general secretary of the Y. M. C. A., will accompany the team. Mr. Smith will give the principal address of the evening. Messrs. Shiel and Hawakaya, Japanese students at Lawrence college, will render several musical selections on the harmonica, mandolin and piano.

**Highway Board Meets**  
A meeting of the Outagamie-co highway committee will be held at 9 o'clock Monday afternoon at the office of A. G. Brusewitz, county highway commissioner. Several matters of routine business will be transacted.

ate to the occasion. The knights are expected to meet at Castle hall and march to the church in a body. A vocal solo is to be given by Mrs. Leslie Taylor of this city.

Word was received in Waupaca Friday of the death of Herbert Wagner of Rhineclander at 10 o'clock the same morning. Mr. Wagner was formerly in business in this city and retained property here. Dr. P. J. Christofferson of this city was called to attend the decedent the day before death occurred.

**DEMAND FOLEY PILLS**  
FOLEY PILLS, a drastic stimulant for the kidneys, have brought relief to thousands of sufferers from kidney disorders caused by the improper working of these organs. FOLEY PILLS will promptly flush the kidneys thereby removing injurious waste matter. Mrs. O. C. Alexander, R. No. 35, Montrose, Mo., states: "I received the package of FOLEY PILLS, and have been greatly benefited by their use."

**Spot Light Dance, Mon. Eve., May 25th.** Leayendeckers, Kimberly. Kentucky Aces.

Dance at Apple Creek. 2 orchestras. Tuesday, May 26th.

## "SUNNY JIM"

Miss Dorothy E. Lee, daughter of Elsha Lee, vice-president of the Pennsylvania railroad, was awarded one of the highest honors at Bryn Mawr College, that of "Sunny Jim." It was given to her as the student who possessed the "qualities of courage, cheerfulness, fair-mindedness and good sportsmanship" whose influence will be felt and who has the courage to live up to her convictions.

## SIMON, OUT OF PRISON, COMES HERE TO VISIT

Wrecker of Cheese Company Paroled After Serving Year of His Sentence

Nic Simon, Jr., erstwhile "Millionaire Kid" whose excursions in the field on high finance caused the Simon Cheese Co. and caused stockholders to lose thousands of dollars, has been paroled from the federal penitentiary at Fort Leavenworth, Kas., and has been spending several days in Appleton. His return to this city was unheralded.

Simon served slightly more than a year of the two year term to which he was sentenced following his plea of guilty to indictments charging conspiracy to use the mails to defraud. He was sentenced in Milwaukee on March 20, 1924 by Federal Judge F. A. Geiger. According to information received here, Simon was paroled by the United States attorney general about three weeks ago and had been making his home in Chicago where his family lives.

Simon was sentenced to two years each of 32 counts on which he was indicted, making a total of 64 years, but the sentences were ordered to run concurrently.

It is understood that state officers are paring to prosecute Simon on charges which grew out of the wrecking of the Simon Cheese co. Hints of criminal prosecution by the state

## AT LIBERTY

NIC SIMON, JR.

cropped out at the recent trial of the suit of William Lembe against the First National bank.

F. W. Grogan left for Marinette early Saturday where he expected to transact business.

Dr. T. A. Murphy and Dr. U. J. McNally were in Milwaukee Saturday.

## GIRLS WIN PRIZES FOR SKILL IN NEEDLEWORK

Madeline Albrecht was awarded first prize for making the daintiest apron in the Appleton Vocational school apron contest which ended Thursday, while Viola Fickel took first place with the best practical apron. The contest was open to all the girls in the school. All the work was done at home, and the winning aprons now are on display in the show windows of the Fair store.

Prize money amounting to \$10 was donated by W. W. Frank, manager of the Fair store, and was awarded as follows: Fancy or dress aprons—first, Madeline Albrecht, \$1.50; second, Lilian Krueger, \$1.25; third, Marcella Klumbers, \$1. Practical aprons—first, Viola Fickel, \$1.50; second, Elta Mittag, \$1.25; third, Agnes Coenen, \$1; fourth, Margaret Stoddler, 75 cents; fifth, Gertrude VanRyzin, 50 cents; sixth, Helen Bauman, 50

## SLIGHTLY HURT IN FALL OFF 30-FOOT LADDER

Walter Peotter, 307 N. Hardman-st., is recovering from the effects of a fall from a ladder at his home several days ago, in which he suffered a sprained wrist and a badly bruised shoulder. Mr. Peotter was engaged in painting his house when he fell from the top of a 30-foot ladder. He turned over twice before he struck the ground but broke his fall by twice getting hold of the ladder. He fell head down, landing on his head, shoulder and arm.

cents; seventh, Esther Abts, 50 cents and eighth, Virginia Grassel, 25 cents. Mrs. Grant Powell, Mrs. F. G. Shannon, Miss Carrie Morgan, Mrs. W. R. Challoner and Mrs. P. H. Ryan acted as judges in selecting the winning aprons.

## RECIPES

Bobbed Hair  
Late Badge  
Of Freedom

BY CYNTHIA GREY

The world has heard a great deal about revolutions in the last few years.

There was the Russian Revolution, the upheaval in Germany, and recently the Bulgarian revolt.

But I wonder if men ever realize the Women's Revolution that has been going on around them for the last 20 years!

I wonder if they stop to think that bobbed hair is not a frivolity, but a badge of freedom. I doubt if it ever occurs to them that short skirts stand for liberty, just as much as the red hat of the French revolutionists stood for it.

Women's clothes are more than costumes today. They are uniforms.

A few years ago there was just as much freedom in women's dress as there was for them in their daily life.

They wore tight corsets, bustles, false hair and "rats," high-heeled shoes in which it was difficult to walk. The woman who discarded her corsets and wore flat, comfortable shoes was termed "peculiar."

Just think, for a moment, how times have changed since 1909.

A woman can kick, or run, or play tennis these days without tearing her skirts, her short skirts that are no more trouble to her than a man's trousers are to him.

Moreover, there are hundreds of restaurants in America and England and France where a woman, even a lady, can smoke without being stared at too much. In New York City, she is allowed to smoke on street cars.

An when it comes to men having the power of reasoning, exclusively, we all know today that that's absurd! No one doubts any more that the feminine brain is just as good as the masculine mental equipment ever dared to be!

Only ten years ago, Alice Duer Miller wrote a religious book entitled "Are Women People?"

Since that time women have proved that they are people who know how to vote, how to go out into the world and earn a man's wages, how to hold office, and do many other things that women never had done before.

And now for the first time in centuries, they are wearing clothes that don't hamper them physically or mentally. "Clothes that stay put," "hair that isn't forever pulling away from its hairpins."

Women are not only people... but "free" people, at last, in every sense of that fine word!

"COCKTAILS" FOR BREAKFAST  
KEEPS HER FIT SAYS ZENA

BY ZENA TRETT

In "The Love Song"

A Cocktail of hot water and lemon juice is my substitute for breakfast and it keeps me in excellent condition, too.

Before I start my daily dozen, I squeeze the juice of a lemon and distribute it equally between two large glasses of water as hot as I can stand

to drink it. I drink both glasses, and take nothing more until lunch. I have found that breakfast is quite an unnecessary meal that tends to consume considerable time, and also to add to one's weight.

The hot water takes the place of a stimulant such as coffee or tea, and keeps one from feeling faint or undernourished.

SISTER  
Mary's  
KITCHEN

Breakfast—Oranges, cereal, thin cream, minced lamb on toast, milk, coffee.

Luncheon—Egg coquilles with spinach, graham bread and butter, lemon pudding, milk, tea.

Dinner—Hot pot of hodge podge, buttered carrots, prune and cheese salad, whole wheat bread, sponge cake pudding, milk, coffee.

No extra dishes need be prepared for junior members of the family if the menu is used as suggested.

The mince lamb on toast uses the "left-over" of a previous dinner and is suggested particularly for school children.

## LEMON PUDDING

One lemon, 1 cup sugar, 2 eggs, 3 tablespoons flour, 2 cups milk, 1/2 teaspoon salt, graham crackers, 4 tablespoons powdered sugar.

Beat yolks and whites of eggs separately. Mix flour and part of milk to a smooth paste. Add juice and grated rind of lemon. Add sugar and remaining milk. Pour this mixture into the well beaten yolks of eggs. Line the bottom and sides of a pie dish with graham crackers, pour in custard and bake in a slow oven until firm to the touch. Beat whites of egg until stiff and add powdered sugar. Continue beating until mixture is stiff enough to hold its shape. Spread over top of pudding and brown in a quick oven.

## EGG COQUILLES WITH SPINACH

One half cup cooked spinach, 4 tablespoons cream, 4 eggs, salt and pepper, 4 teaspoons grated cheese.

The spinach should be chopped very fine and well seasoned with salt, pepper and butter. Butter four ramekins and put one tablespoon prepared spinach in each case. Add one tablespoon cream and on top put an egg. Put ramekins in a pan of hot water, cover with buttered paper and bake in a hot oven for eight minutes. When eggs are set sprinkle with salt and pepper and cheese and return to the oven to melt cheese. Remove buttered paper after sprinkling with cheese. Serve at once in ramekins.

(Copyright, 1925, NEA Service, Inc.)

## CREPE FROCK

As a trimming for the crepe frock nothing is more successful than embroidery in bright colors. This frock combines embroidery and pin tucking most interestingly, and the long tie contributes a youthful effect to the whole. The color of the dress is a deep rust and the embroidery is in shades of tan and brown.

new collures that make use of the chin.

## BLACK STILL USED

Though it is a colorful season, black plays an important role. Many black dresses have panels lined with very gorgeous colors or are worn with coats with very vivid linings.

## FASHION HINTS

## POLKA DOTS POPULAR

The blue foulard dress with the white polka dot is seen in all the smartest style collections. Frequently it is worn with a straightline kasha coat lined with the foulard.

## NEW PINKISH GRAY

A new shade of pinkish gray has made its appearance and is proving a vogue. It is a less practical shade than beige, but it is smarter because it is newer.

## LARGE COMBS AGAIN

Large combs and elaborately carved hairpins are being shown for the

Sweep and wake him up. He works so hard that he sleeps soundly, and I doubt if he knows that spring is not only coming, but here.

"Where does he live?" asked Nancy.

"Reside the broom store in a barrel," answered the March Hare.

The traveled all day and by moonlight they arrived at the broom store.

Reside it was a big barrel, from which sounds of snoring were coming.

"Just as I thought," said the March Hare, peeping in. "He is fast asleep. Johnny Sweep is!"

(To Be Continued)

## The Tangle

LETTER FROM LESLIE PRES-COTT TO BEATRICE SUDDERS, CONTINUED

In answer to mother's questioning look, I hastened to explain that to find understanding and consideration between the sexes and to be able to bring others to the place where they might also discover these two great outstanding signposts to happiness, was a much greater achievement than to discover the north pole on earth or a new star in the heavens.

We had quite a conversation on this subject, my dear, but I have written you enough for you to appreciate my mother and for you to understand how much your letter meant to me.

It is wonderful here at Atlantic City this time of year. The air is brisk enough to be bracing, and yet one does not feel the cold as one does in the city. I am probably going to stay here until my baby is born. Ruth Burke came down with me after Alice's funeral and she has promised that when she leaves and goes back to Albany, that she will pack up the furniture in my apartment and ship it over to Pittsburgh for me. Isn't that lovely of her?

I would be very ungrateful if I did not thank Fate every day for my good friends like you and Ruth. I shall not try to move into the old home until the alterations are made. At first mother and I thought we would go out to California, but we concluded that it would not be the best thing to do. I felt it would be too far away from Jack, and I knew that until he had gotten dad's business well in hand that it would be impossible for him to think of leaving Pittsburgh for more than a day or two at a time.

I wish you would tell Paula Perier for me that it is very sweet indeed of her to think of my coming baby and I will accept with pleasure any memento of my visit with her when she was in Albany that she may send me. Tell her that contrary to every one else I am hoping that my baby will be a boy, if only to confuse those people who are always afraid that I will grow to hate little Jack when my own son makes his appearance. Nothing nor no one but himself can take one jot of my love for little Jack away from him.

My friends do not seem to understand that the baby that will soon be born will be in a way thrust upon me. While of my own free will I made a place in my arms and in my heart for my oldest child. In some unaccountable way little Jack seems to sense this, for his love and admiration is apparently boundless. If he is not the child of my body he is something infinitely nearer and dearer, the child of my soul. I have not heard from Sally since I have been down here. She is probably very busy and will write me as soon as she is able.

Write me often, Bee. I love your letters.

LESLIE

(Copyright 1924, NEA Service, Inc.)

TOMORROW—Letter from Sally

Attention to Ruth Burke.

Adventures  
Of The Twins

## THE BARREL RESIDE THE BROOM FACTOR

The March Hare and the Twins went in search of the circus clowns, and before the week was out they had found every one of them.

By that time all the elephants were scrubbed and the camels well dusted, and the trained seals put in practice, and the white horses taught new tricks and the callopie repaired and the wagons painted—and everything.

Even the balloons were ready.

And in no time at all the circus was ready to start on its travels to all the towns and cities where great crowds of people were anxiously waiting.

As the big red wagons bumped along the road, the Circus Man came to the place where the March Hare and the Twins were standing.

"I'm much obliged for your help," he said gratefully. "If it hadn't been for you I never would have known where the circus stays in winter, one loses all track of time. Would you like to come with us and have some adventures? Perhaps I could teach you to do a circus act."

Nancy and Nick would have liked to go but the March Hare shook his head. "No thank you, but I have more work to do. Getting the circus started was only one of the things I was told to do. Besides I'm not much good at acting. I was put into a story book once, something about a tea-party. I believe, and that was had enough. I only behaved foolishly."

"Well, then good-bye!" said the Circus Man. "Come to see me next year." And he shook hands all around.

"Good-bye!" called Bimbo the Clown. And he blew them a kiss.

"Good-bye!" said the March Hare, lifting his hat.

"Good-bye!" waved the Twins.

When the circus had disappeared in the distance and nothing but a cloud of dust was to be seen, the March Hare looked at his watch again.

"Dear, dear!" he cried in dismay. "It's the middle of March!"

"Can you tell dates by your watch?" asked Nick.

"Certainly," said the March Hare. "Days, weeks, months and years as well as minutes and seconds. It's a Fairyland watch. The Fairy Queen gave it to me on my last birthday. Now it says that it's ten minutes past four on the sixteenth day of March, two years after the year before last. That means now. And not a chimney cleaned out!"

"What!" cried the Twins.

"You shouldn't say 'what.' You should say 'I beg your pardon.' But this is no time for a lesson in manners. What I said was that there isn't a single chimney cleaned out."

That means now. And not a chimney cleaned out!

"What!" cried the Twins.

"You shouldn't say 'what.' You should say 'I beg your pardon.' But this is no time for a lesson in manners. What I said was that there isn't a single chimney cleaned out."

That means now. And not a chimney cleaned out!

"What!" cried the Twins.

"You shouldn't say 'what.' You should say 'I beg your pardon.' But this is no time for a lesson in manners. What I said was that there isn't a single chimney cleaned out."

That means now. And not a chimney cleaned out!

"What!" cried the Twins.

"You shouldn't say 'what.' You should say 'I beg your pardon.' But this is no time for a lesson in manners. What I said was that there isn't a single chimney cleaned out."

That means now. And not a chimney cleaned out!

## Pineapples

Season is now in full swing. The quality is at its best. In our opinion price is at bottom. We advise purchasing canning requirements now. The crop is considerably smaller than last years. It would not seem good policy to delay making purchases. See you dealer today.

Wisconsin  
Distributing Co."MY SON" BRINGS  
NAZIMOVA BACK  
TO THE SCREEN

Hollywood—Latest pictorial milestone in the return of Madame Nazimova to the screen is "My Son," an Edwin Carowe production for First National.

It is a typical Nazimova picture such as she made prior to her retirement, heavy with emotion, vibrant with heart throbs, and preachy in most palpable style.

The story is the typical mother-love theme warmed over, and served without dressing of subtlety or variation.

The usual characters are found: a doting mother (Nazimova); a likeable but wayward son (Jack Pickford); a simple village sweetheart (Mary Aikin); and a girl of wretched tendencies (Constance Bennett). These ingredients, it seems, always effervesce into a vamping of the son away from his sweetheart and rectitude, the intercession of the mother, and the salvation of the son through such intercession.

## USES SHOVEL

So, it is with this picture. That the mother intercedes with a shovel handle applied to the head of the erring boy, and that there is a minor love story involving the mother, does not lift the story into the realm of new things.

Most of the character portrayals are unconvincing. They are not people such as one meets and knows. Gradually, as the picture progresses, they lose the sympathy which subtleties have solicited for them, and the one real major character in the story, the vampire, as enacted by Miss Bennett, wins what the others lose.

Nazimova is given many chances to make good her title of "world's greatest emotional actress," and takes advantage of them all. She plays before a shrine that her son may be saved; she discovers the evidences of her son's guilt; she is plunged from happy prepossitions for her own marriage precipitously into the embrace of her son's misdoings.

TO DISCOVER "Nazimova" Some day someone is going to "discover" Nazimova anew. Probably it will be someone who did not see her masterpiece, "War Brides," of

some years ago. This person will see in her a brilliant, expressive personality, capable of subtleties of emotion. He will lift her from the gray somberness of "War Brides" and subsequent pictures into the bright lights of salon and ballroom.

In such settings, this somebody will let Nazimova emote with eye-brow and lip corners form a chaste longue instead of with arms, chest and torso from the floor. Opposite her he will put men of delicately refined expression, such as Adolphe Menjou, Lew Cody or Conway Tearle.

Nazimova perhaps will be delightfully wicked. Maybe not. But at any rate she will keep within the suppression that modern conventions demand. And also she will be mental. There will be for her a story of subtlety, and pecked by actual types.

All this is a pleasing possibility—yet in prospect.

## Let Us Help You Decide

Are you neglecting your teeth, putting it off until days make years, because you cannot decide as to what should be done, wondering how long it will take and what it will cost?

Why not get the worry off of your mind by placing it on ours?

It is easy for us. We answer such question free of charge many times a day. Come to the Union Dentists where there are expert dentists, painless methods and reasonable prices.

There are conditions to justify immediate extraction of teeth; but there are so many ways to restore defective teeth, aching teeth, to usefulness and good appearance, so many ways to filling vacant spaces, thus restoring them to full usefulness, that it is wise to make a decision only in consultation with expert advice.

Conditions grow worse as time passes. Get the information now. We will tell you truly what you need and what it will cost.

## Our Plate Dept.

Highest price plate \$16. Many dentists charge \$10 extra for the gold dust rubber alone on this plate. This is a regular \$30 plate. Other plates are \$10 and \$12.

Have your plates made now. Examination costs you nothing. Lady Assistant—Two Dentists. References from people you know. Ask your neighbor.

PAINLESS EXTRACTIONS Our Painless Extractions is bringing us hundreds of patients through recommendations, which must establish confidence in THE UNION DENTISTS.

## Household Hints

## SAVES IRONING BOARD

An asbestos sheet such as is used under a sheet cake tin will save the

end of the ironing board when the iron is set.

## SOAP SHAKER

In soaping a dishwater a soap shaker is very satisfactory, not only because good ends are obtainable, but also because one can utilize small pieces of soap by placing them in the shaker.

## WOODEN SPOONS

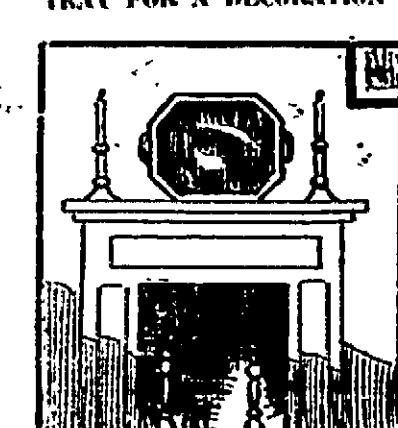

Wooden spoons are best for stirring and mixing. A wooden knife and fork for serving salads is also advisable.

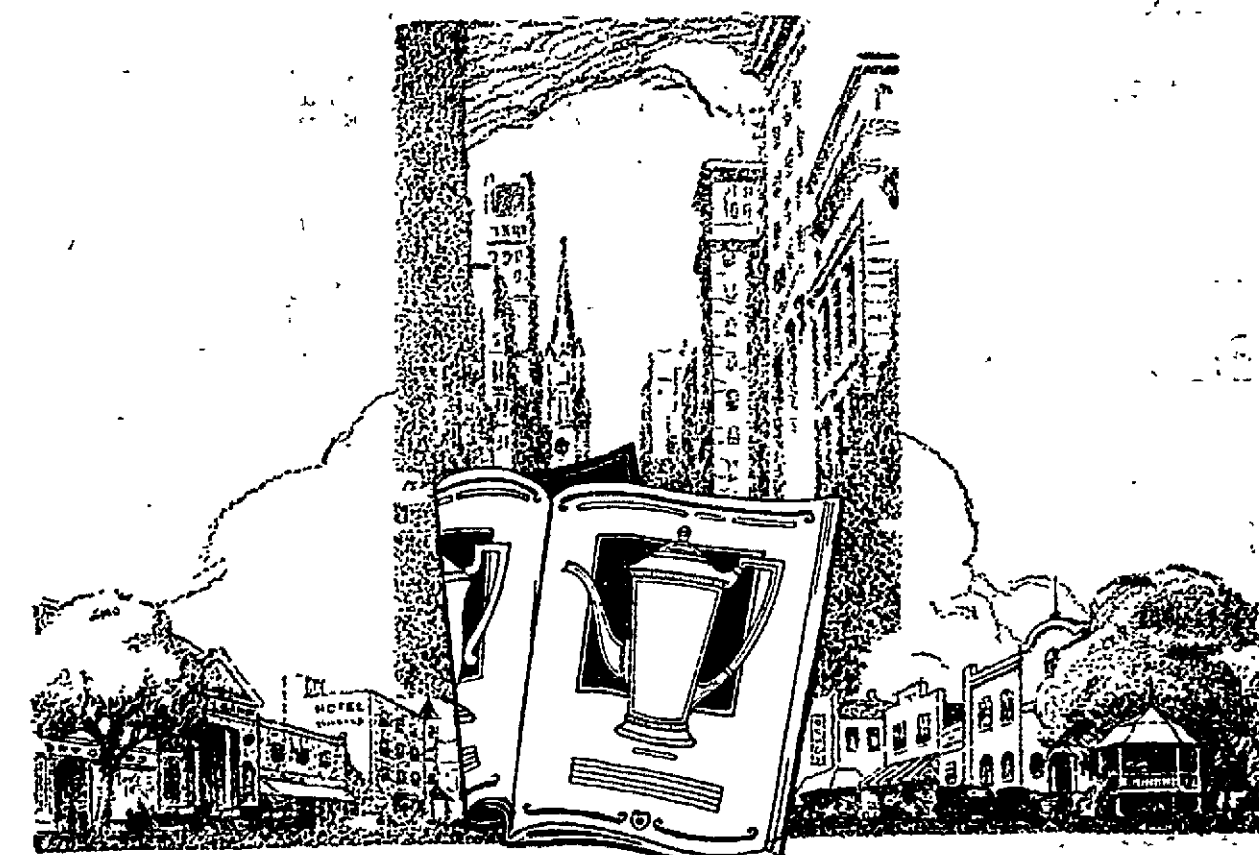

ring and mixing. A wooden knife and fork for serving salads is also advisable.

How To Make  
Homes Cozy

## TRAY FOR A DECORATION

If you have a beautiful large tray, it may make a good decorative piece, resting on the mantel, as shown here. A decorative mirror also looks good just resting on the mantel, rather than hanging above it.

Photo-Engraving Extends Fifth Avenue  
Across the Continent

FIFTH AVENUE connects with the Main Streets of thousands of towns and cities by means of photo-engravings of its luxurious wares.

Likewise photo-engraving has given the shops of Chicago's State Street, Boston's Boylston and Philadelphia's Chestnut Street, frontage on the great national highway of retailing.

The luxuries of the metropolitan centers of every state are carried to the dwellers in the smaller places and over broad acres thru catalogs, brochures and broadsides; richly and profusely illustrated.

The same exquisitely patterned silver that rests on the napery of the French embassy in Washington, graces the table of the ranch house nestling in the foothills of the Rockies.

The members of the American Photo-Engravers Association are vitally interested in helping you to enlarge your market. "Your Story in Picture Leaves Nothing Untold."

## The Miser and His Gold

Once upon a time there was a Miser who used to hide his gold at the foot of a tree in his garden; but every week he used to go and dig it up and gloat over his gains. A robber, who had noticed this, went and dug up the gold and decamped with it. When the Miser next came to gloat over his empty hole. He tore his hair and raised such an outcry that all the neighbors came around him, and he told them how he used to come and visit his gold. "Did you ever take any of it out?" asked one of them. "No," said he, "I only came to look at it."

Then come again and look at the hole," said a neighbor. "It will do you just as much good."

**Chickering**  
ESTABLISHED 1823

**JONAS CHICKERING** has been justly called "The Father of the Modern Piano," for in 1837 he perfected his epoch making invention of the full iron plate for grand pianos.

This invention proved to be the foundation of all modern piano construction and defined a new era in the history of piano-making.

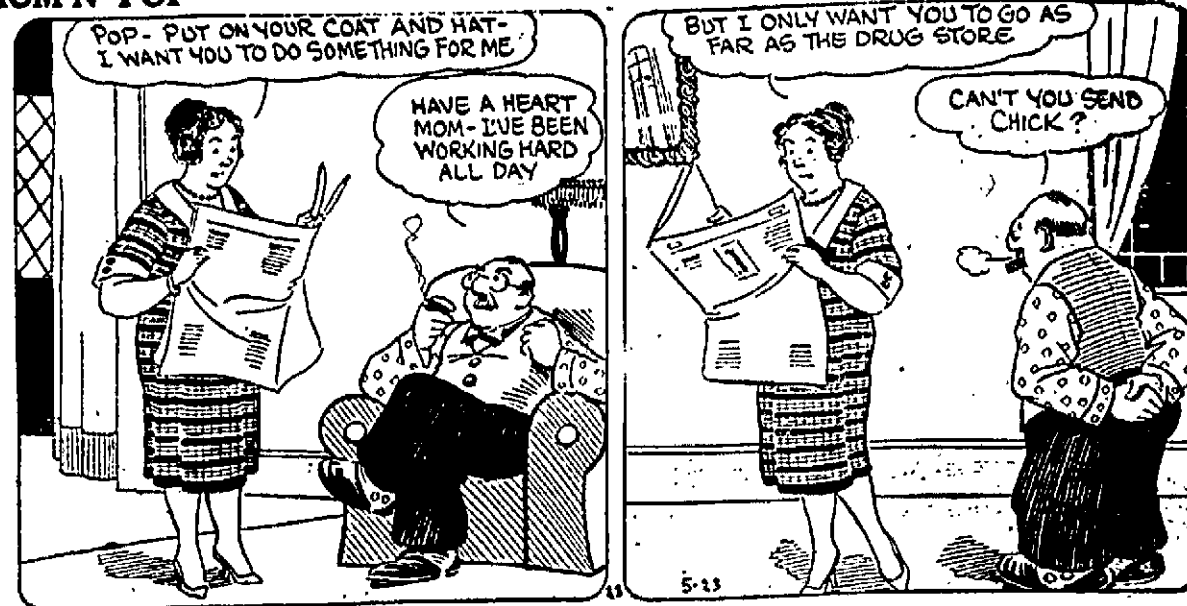

Through the full century of its triumphant career, the Chickering has been chosen by the most famous musicians as the medium for their genius. Such great artists as Dohnanyi, Lhevinne, Mirovitch and Schnitzer use the Chickering not only for their concert work but also in their homes. They find in the smaller sizes the same rare qualities of tone that charm them in the Concert Grand.

Chickering prices from \$875 to \$2500.

# WESTERN TEAMS HEAVY LOSERS ON EASTERN TRIP

## RIPON EXPECTS TO TAKE FIRST IN STATE MEET

Work in Midwest in 1924 Taken as Basis; Blues Should Go Big in Runs

Ripon, Wis.—With an impressive list of entries at hand from Lawrence and Carroll, the stage is rapidly being set for the state intercollegiate track classic here on Saturday. Due to Beloit's withdrawal from the Little Five, the state meet now takes the form of a triangular contest. Ripon looms as a probable victor by virtue of her midwest championship of last year, although past records give only a fair indication of what can be expected this season.

It is known that Carroll is exceptionally strong in the weights and dashes, with Spurlock and Lundie showing championship class. Lawrence has a well balanced team while Ripon, with Christofferson, Eckert and Murray, looks formidable.

**SORENSEN IN MILE**  
The mile should go to Sorenson, Lawrence, while Eschbacher, Ripon and former Milwaukee South Division sensation, is slated to cop in the two-mile. The half should go to Rehbein, Lawrence, or to Eckert, Ripon, who should win the 440 without much opposition. Stair, Lawrence, or Lundie, Carroll, should cop the century, with Murray, Ripon, leading the field in the 220. Comparative records for the season indicate that Christofferson, Ripon, should cop the 1200 hurdles, while Beyer, Lawrence, and La Motte, Ripon, will lead the field in the 220 low hurdle event.

McConnell, Lawrence, and Christofferson, Olympic candidate last year, holds the midwest record in the broad at 22 feet 9 inches. Spurlock, Carroll, and Hipke, Lawrence, both have the shot over forty feet. The Carroll star also hurled the discus over 120 feet and has tossed the javelin well over the 175 mark. Hipke should place second in the javelin. The pole vault should go to Carlson, Ripon, with McConnell and Carlson, Lawrence, competing for second place. Lawrence, with Stair, Rehbein and Hyde are relay favorites.

## Dave's Dots And Dashes

It looks like a tad weekend for the Pails if the cold weather hangs on. With this weather the Menasha-Neenah mound pitchers again will find the sledding tough as they sure love that old warm weather to hurl in. And the sledding will be tougher for Wally Pierce, Pail boss. With three real games, he was counting on making up a little for the poor attendances to date. But the midweek games with the Madison Blues last week were any indication, the cold weather will cut the crowd in half.

When the fans see Bert Gallia, player-manager of the Athletics, take the mound Sunday—if they are that lucky—they will see a wonderful hurler in action. Bert was up there with Walter Johnson on the Senators for years and he had the big boys looking silly. For two years he has been the incomparable Walter, were the mainstays for the Capital city crew.

Ripon seems to have things pretty much their own way according to their lead on the state track meet. They pick Sorenson, Blue star, to cop the mile, but give the "second Flying Finn" no chance in the two mile. His best event, of course, Eschbacher of Ripon, was the star of Milwaukee high schools for three years, but from what we have seen of the Blue man under actual competition we think he has a real chance of beating the Red star to the top. He can time himself perfectly while running and keeps an even pace for each lap until the big one. That's one vice of Ripon fans we'd like to see upset.

## TENNIS. GOLF POPULAR SPORTS AT OSHKOSH

Oshkosh—Tennis and golf are getting under the skins of the young men at the Oshkosh high school. And they're catching the disease "permanent like," it appears.

Schools in every city of the state are taking advantage of the organization that has been built up in the golf branch of summer sports and the bill shooting game bids well to be one of the most popular in the school sport calendar here in Wisconsin.

Tennis, too, has its supporters. At present it has more support than golf in the local high school.

Golf and tennis are being encouraged by the faculty. John F. Valle, Jr., instructor of English at the high school, is taking an active part in the promotion of the sports.

Though Oshkosh is not equipped with good public courts, tennis interest is keen.

With the advantage of a municipal course Oshkosh High will soon be far ahead of the other schools, once the students get started in golf.

## PITTSBURG ONLY TEAM TO SQUAD TO BREAK EVEN

Western Teams Reverse Form to Win Final Games of Season Invasion

New York—Braced by their complete form reversal of Friday, in which they turned the tables on the eastern club by sweeping every game, western teams of the National League Saturday prepared for their final stand of the disastrous Atlantic seaboard invasion.

They will strike their tents Sunday and draw off their forces with a record of having lost almost two-thirds of their games during the eastern trip.

The Pittsburgh wing alone of the routed storming party will retire to the shelter of home grounds with the satisfaction of having penetrated the defense of the east. With their triumph Friday over the champion Giants, the McKenchie team established a record of having won 8 of their last 13 starts during the eastern tour.

A review of the results of the invasion Saturday showed that the western teams had thus far taken but 19 of their 53 contests. Cincinnati coming east in a threatening position at second place, was able to win but 4 out of 13 starts, while the Cubs were victors in only 3 games out of 14. The Cardinals duplicated the record of the Reds.

The Cubs have profited most by the interseasonal series winning 11 out of 14. The Robins boasted 9 wins and 3 reverses, the Phillies took 8 of their 13 games, while the Braves stood all square today, 6 and 6.

Percy Jones, Chicago southpaw, featured Friday's western comeback with a one hit game against Brooklyn. The Cubs required brilliant pitching to pull out the game, for they were able to gather only two runs of the Robins, while Jones was blanking the home club.

The Giants carried the Pittsburgh team to ten innings, but were unable to stop the boarding Corsairs, who used Terry's shine off which to deflect track double by Traynor for victory, 6 to 5.

Wright and Wilson both contributed homers.

The Reds swarmed all over the Phillies, shelling four Quaker pitchers, before the home team, who were home by Roush, Dressen, Donohue and Walker, Donohue pitched air-bait and Cincinnati won in a walk, 11 to 2.

Rhelim started in another pitching classic for seven innings against Boston, when the Braves rallied and threw a scare into the St. Louis host as six runs were piled up. The Cards barely checked off the spurt to win by 8 to 6.

## HORSESHOE HURLERS MAKE FINAL PLANS

What will probably be the final plans for the Appleton Horseshoe Pitching association will be made at a meeting of local men interested in the sport Monday evening at the Y. M. C. A. Special invitations have been sent to participants in last year's tourney to attend the meeting. The league will be run under the auspices of the Y. M. C. A.

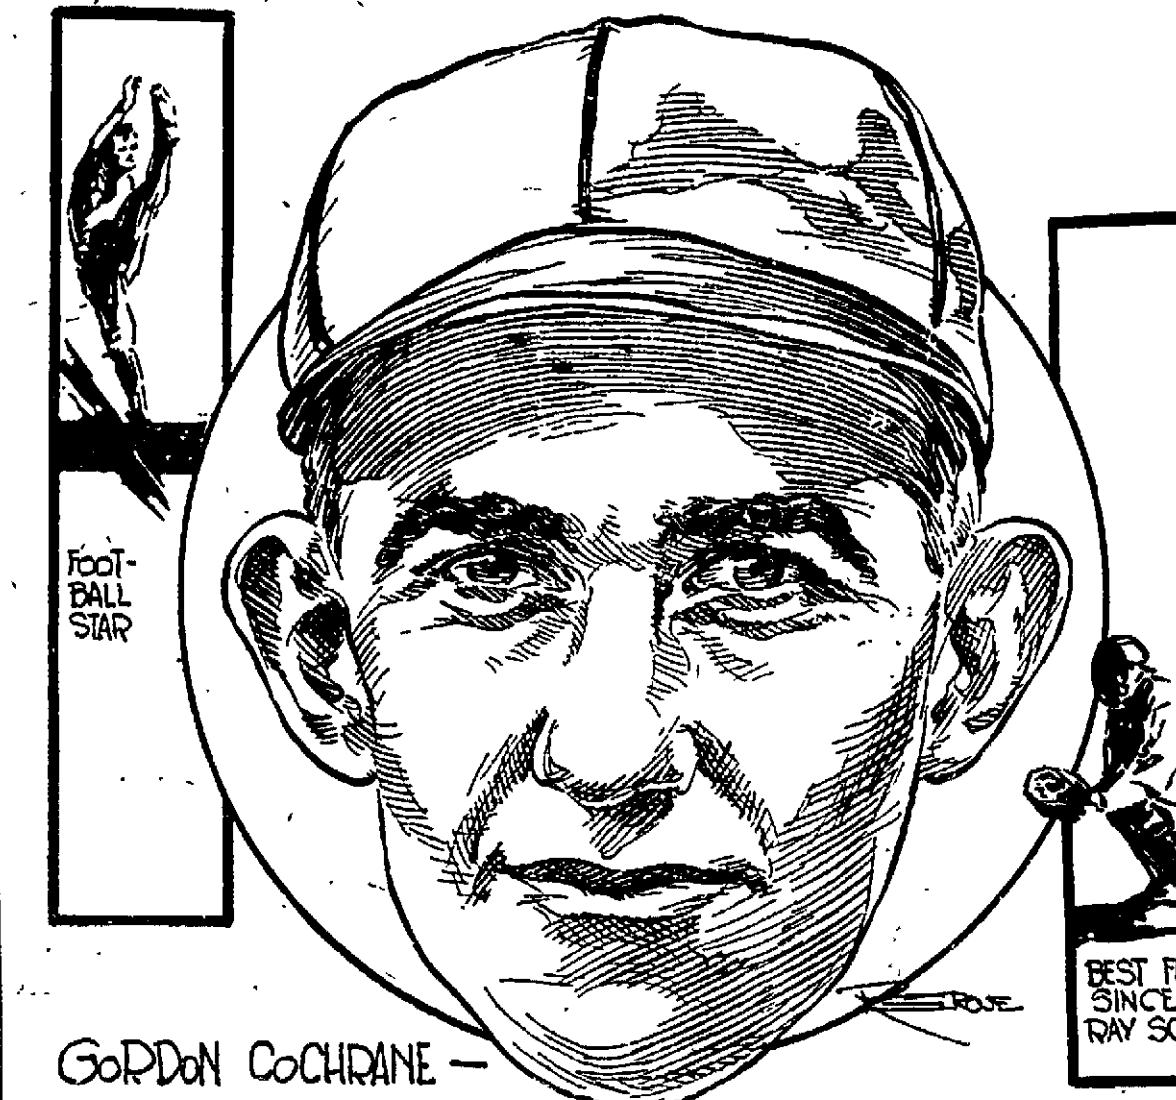

Among the problems to be discussed is the formation of a local league. If this is formed, every player will meet every other player in the series' play and standing will be determined on a percentage basis. "Burnyard golfers" who have taken part in meets in other cities will tell about the organizations in those places and make new suggestions. A team probably will be picked up from the best pitchers near the end of the season and an attempt will be made to schedule intercity matches for the valley title, according to A. R. Jensen, physical director of the "Y."

The new courts of the local "Y" on the W. Lawrence at lot now are being put into the best of condition for a hard season.

Ken Williams of the Browns, who made the home run race with Babe Ruth so interesting for a time last season, and Bob Meusel of the Yankees in a deadlock for circuit drives in the league with eight each. Williams is leading in total bases with eighty-six.

Jameson of Cleveland, by scoring 22 runs is the best run getter. Johnny Mott of the White Sox is burning up the bases with his speed, leading with sixteen.

## MACK SAYS COCHRANE IS SECOND RAY SCHALK

GORDON COCHRANE

BY BILLY EVANS  
"The best young catcher to break into the American League in the last 10 years."

That's Connie Mack's estimate of Gordon Cochrane, who is making his big league debut with the Athletics. When I talked with Connie down at Ft. Myers, Fla., the spring training camp of the Athletics, he was not so positive about Cochrane.

When I queried him about the young man, who cost him, in the neighborhood of 40,000 iron men, he replied: "Cochrane has much promise. He is going to help my club. He lacks experience, has his faults but possesses ability and enthusiasm."

"Just now he has the habit of fighting the ball, doesn't give with it and it affects his style."

In baseball, fighting the ball is construed as not handling it with ease. Instead of giving with the ball, the player has the habit of pushing his hands into it.

This causes him to receive the ball in a stiff manner, the muscles are tightened and, as a result, many pitched balls are dropped.

Wally Schang had a similar habit when he broke into the majors. However, he quickly overcame it and ranks one of the game's best catchers.

Unquestionably Cochrane was fortunate in having the advice of three men who know every angle of catching. Connie Mack, Ira Thomas and Cy Perkins.

Connie Mack won diamond fame as a catcher long before he became an outstanding big league manager. Ira Thomas, Mack's first assistant, for years was one of the most valuable catchers in the American League. Thomas was a thinker. He got the utmost out of his pitching staff.

Cy Perkins, who for years has done practically all the catching for the Athletics, starred on a talented team. He is still rated one of the leading catchers in the majors.

Quick to absorb the knowledge imparted to him by Mack, Thomas and Perkins, it was only a very short time before Cochrane began to show results. Almost overnight he developed from a likely prospect into a great catcher.

Cochrane is a "Bah-Rah" athlete. He attended Boston college. He starred in football as well as baseball at that institution. It is hard to understand how the scouts of the two Boston clubs overlooked him.

No one player has done more to make Mack's club the early sensation of the majors than the youthful Cochrane. The rest of the team has absorbed his enthusiasm. Instead of a desultory aggregation, the Athletics are now a colorful aggregation.

Cochrane bats left-handed and seems to have no great difficulty in hitting southpaws. He is the fastest catcher in the American League.

There is no better balanced catching staff in the majors than the youthful Cochrane and the veteran Perkins, both stars.

Quick to absorb the knowledge imparted to him by Mack, Thomas and Perkins, it was only a very short time before Cochrane began to show results. Almost overnight he developed from a likely prospect into a great catcher.

## 2 Yanks Keep Up Hit Mark In Spite Of Team Slump

Chicago—Earl Combs of the skidding New York Yankees is the new batting leader of the American league. Combs, with Benjie Paschal, former star with Atlanta in the Southern Association, apparently have not been affected by the slump in hitting which has overtaken the Yanks, as they have been corraling hits with such regularity that Combs is leading with .415, with Paschal runner-up with .410. These figures, compiled today, are based on games including those of Wednesday.

Tris Speaker, the gray-thatched manager of the Cleveland Indians, despite a lame knee, crept up on the headlines and is in third place with .404, while Ty Cobb, of the Tigers, is hanging on to fourth place with .395. Cobb has even suffered a material slump since the club returned home.

George Sisler of the Browns, who hit safely in thirty-four consecutive games before stopped by the Athletics Wednesday, is sixth place with .391, one point behind his hard working catcher Hank Severid, who follows Cobb with .382.

Ken Williams of the Browns, who made the home run race with Babe Ruth so interesting for a time last season, and Bob Meusel of the Yankees in a deadlock for circuit drives in the league with eight each. Williams is leading in total bases with eighty-six.

Jameson of Cleveland, by scoring 22 runs is the best run getter. Johnny Mott of the White Sox is burning up the bases with his speed, leading with sixteen.

Other leading hitters, in fifteen or more games: Simmons, Philadelphia .388; Burns, Cleveland .378; Vachek, Boston .366; Goslin, Washington .365; Heilmann, Detroit .354; Wingo, Detroit .348; Shelly, Chicago .347; Boone, Boston .347.

Nelson Hawkes, first baseman of the Phillies, has become the sensation of the week in the National League. The wonderful scout of Hawkes, who based 14 hits in seven games, has carried him from far down in the .300 class to the head of the procession with an average of .425, a gain of 94 points over his mark of .331 a week ago.

Hawkes' batting has given him the edge on the veteran Rogers Hornsby, 1924 champion of the league. Hornsby is trailing the former Southern Leaguer by 21 points, the St. Louis star having .408, one point ahead of Jack Courtonne of the Dodgers, who is third with .407.

Hornsby increased his lead in total bases to 23, his forty hits including the batman.

## TWO RECORDS FALL AS BADGERS WIN MEET

Madison — Wisconsin defeated Minnesota in a dual track meet here Friday, 88 13 to 46 2-3. Two Wisconsin records were broken in field events when Krcus of Wisconsin hurled the javelin 176 feet 1 inch, and Cox of Minnesota threw the hammer 153 feet 7 1/2 inches, greenwashed of Minnesota. Surprised the spectators by defeating McAndrews, stellar Wisconsin dash man, in the 100 and 220 yard races.

## PAIRS REGULARS BACK FOR DOUBLE BILL WITH RACINE

Leopold and Handy, Out With Injuries Last Week, Ready to Start Again

With Racine working to get near the top again after being rained out of most of its games this season and Menasha-Neenah anxious to leave the city, a battle royal is scheduled for Sunday afternoon at Menasha when the two scrapping crews meet in a double bill starting at 2 o'clock. Practically every man on the Athletic crew has shown his wares with Canton, Simmons, Nash or Racine in the last few years and all are stars of the first water. Racine's hurlers are tried veterans. Pepper Clark was the ace of the 1921 Canton string. Jimmy Saxton and Bert Gallia, are former big leaguers. Gallia, player-manager of the Athletics, was a teammate of Walter Johnson at Washington for several years. He has a world of speed and a wicked curve ball that is hard for the umpire to see. Left Graham is a southerner. The selections for the Menasha game have been announced, but Baxter and Gallia probably will start, with Clark pitching on Saturday at Sheboygan.

Menasha-Neenah's chances took a bound this week when it became known that Handy's bad finger was about ready for service and Harry Leopold's cracked ribs have mended sufficiently for the big first sacker to play his usual line.

Saxman Wurtz left for LaCrosse where he will play for a few weeks and he regains his old time condition he will be brought back for another try at the old job. He still has several good ball games in his system and should be back with the Pails soon.

**FROM DUKE TO CLERK**  
Vienna—Leopold Hapsburg has been sentenced to pay 100,000 crowns to the relatives of a man whom he had struck and killed with his auto. Although a former archduke, he asked permission to pay it on the installment plan, as he said he was now a bank clerk on a small salary.

**GEISHAS BOB HAIR**  
Tokyo—Bobbed hair is increasing in Japan. The bobbed-haired geisha girls have formed a society to which only those with short tresses may be admitted.

Although in the land of ice and snow, the temperature in Juneau, Alaska, rarely reaches zero.

More than half the destructive pests in this country are of foreign origin.

## APPLETON BOYS TO STUDY SPORTS

Former Orange Athletes Work Under Famous Coaches in Summer Camp

Clifford "Clit" Courtney and Claude Bowby, stars of the Appleton high school football and basketball teams for the last two years, are among the hundreds of Wisconsin athletes who will take advantage of the summer athletic camp conducted by the state Y. M. C. A. at Phantom Lake this year. Both boys attended the camp in 1924.

The camp which runs from Aug. 17 to 27 is for the express purpose of teaching the youth of the state the real "inside dope" in all branches of athletics and is handled by the best coaches of the west in each sport. The coaches this year are: Track—T. E. Jones, Wisconsin, assisted by several high school coaches; basketball—William Chandler, former Wisconsin All-Western man and now coach at Iowa State University at Ames; football—George Little, new director of athletics and grid mentor at Wisconsin. No one city is allowed to monopolize the camp.

Paris—Employees of the Paris-Mutuel booths at the Metropolitan race tracks threatened to strike unless given a fifty per cent increase in salary.

**What Do You Know About Salads and Salad Making?**

Canned foods lend themselves so readily to successful salad making, that every housekeeper should endeavor to have in reserve a small stock of the fish, fruits and vegetables which are most popular for this form of cookery, for the emergencies which arise in even the most perfectly managed household.

With a bottle or two of prepared salad courses to her menu, and such in the twinkling of an eye add a salad course to her menu and such a salad course, too, as would not be possible were she to rely solely on the green goods available in the market.

But to do this she will need the recipe booklet on canned foods which this bureau has for free distribution. This booklet tells how to prepare 25 salads and 10 different salad dressings.

It is yours for the asking. Just enclose two cent stamps for return postage.

Frederic J. Haskin, Director of the Appleton Post-Crescent Information Bureau, Washington, D. C.

I enclose herewith two cents in stamps for return postage on a free copy of the booklet, RECIPES FOR CANNED GOODS.

# It's Easy For You To Save As Much Money As Those Who Regularly Read These Ads

## APPLETON POST-CRESCENT

### Classified Advertising

All ads are restricted to their proper classifications and to the regular Appleton Post-Crescent style of type. Daily rate per line for consecutive insertions.

Charges: Cash  
One day ..... 12  
Three days ..... 30  
Six days ..... 45  
Minimum Service, 10 days, \$1.00.

Advertising ordered for irregular insertions takes the one time insertion rate, no ad taken less than basis of two lines. Count 5 average words to a line.

Charged ads will be received by telephone and if paid at office within six days from the first day of insertion cash rate will be allowed.

Ads ordered for three days or six days and stopped before expiration will only be charged for the number of times the ad appeared and adjustment made at the rate earned.

Special rate for yearly advertising upon request.

Publishers reserve the right to edit or reject any classified advertising copy. Telephone 548, ask for Ad Taker.

The following classification headings appear in this newspaper in the numerical order here given, closely allied classifications being grouped together. The individual advertisements are arranged under these headings in alphabetical order.

## RAILROADS PAY 7 MILLIONS IN TAXES TO STATE

Rail Transportation Property  
in Wisconsin Is Valued at  
349 Millions

Railroads in Wisconsin will pay \$7,338,447.90 in taxes this year on an assessed valuation of \$349,047,000 according to an abstract of valuation and assessment of the properties of 1925 and the taxes levied on them for 1925 and the taxes levied on them for the year by the tax commission. It was reported at the traffic department of the Association of Commerce, this morning.

The tax rate is .0212121 or about \$21 per \$1,000 of assessed valuation. Following is the assessments and taxation on the roads entering Green Bay:

Ahnapee and Western Railway company assessment, \$450,000, tax \$9,450.91; Chicago, Milwaukee and St. Paul assessment, \$1,000,000, tax \$21,212.12; Chicago and Northwestern assessment, \$120,000,000, tax \$2,522,522.52; Green Bay and Western assessment, \$2,350,000, tax \$49,812.50; and the Kewaunee, Green Bay and Western assessment, \$1,200,000, tax \$25,222.02.

The same tabulation gives the assessment and taxation of telegraph companies in the state as follows:

Chicago, Milwaukee and Lake Superior Telegraph company, assessment \$125,000, tax \$2,625.00; North American Telegraph company of Wisconsin, assessment \$450,000, tax \$9,450.91; and Western Union Telegraph company assessment \$5,000,000, tax \$105,121.20.

## 233 CARS LICENSED IN COUNTY LAST MONTH

Two hundred and thirty three automobile licenses were issued in Outagamie county during April, according to an announcement by Fred Zimmerman, secretary of state. More than 10,000 automobiles were registered in the state during that month, Mr. Zimmerman said. The secretary of state has inaugurated the issuance of monthly reports regarding the number of registrations and the number of each make of car for which licenses were issued, for the information of dealers and others.

The total number of licenses issued in April was 10,749. The registration by counties included: Brown, 254; Chippewa, 152; Dane, 445; Douglas, 146; Eau Claire, 140; Kenosha, 215; LaCrosse, 213; Manitowish, 243; Marathon, 322; Marinette, 137; Milwaukee, 2,046; Oneida, 97; Outagamie, 233; Racine, 285; Rock, 321; Wood, 180; Winnebago, 229. Thirty-seven makes of automobiles were represented in all but 43 of the registrations.

## DON'T LOCK SUITCASE IF YOU SEND IT BY MAIL

Instructions for shipment of suitcases and traveling bags through the mails are issued in a bulletin from the United States Postal department, in preparation for the approaching vacation season. Cases and bags should not be locked, the bulletin says. They should bear labels with the complete address of sender and consignee, and these labels must be attached firmly. In addition to this label a tag bearing both addresses should be enclosed with the contents of the bag, to guard against loss if the label should be torn off en route.

Suitcases and bags need not be wrapped or boxed unless the sender wishes to insure against abrasion, wearing or scraping.

## WANT SAFETY TAUGHT TO CHILDREN IN SCHOOLS

Miss Carrie Morgan, superintendent of schools, recently received a communication from Secretary Hoover, calling attention to the conclusions of the national conference on street and highway safety, with regard to safety education in the schools, and requesting active participation in the movement. In the communication Mr. Hoover said that copies of reports of the education committee and conference might be had upon request for distribution among principals and teachers. The movement was started by Dr. Frank W. Ballou, president of superintendence of the National Education association.

The education association stated in its report that as most accidents are the result of ignorance, it follows that a large portion of them will be eliminated through education in the schools. The committee made a number of recommendations for the incorporation of safety education in the curriculum of schools, and called attention to the fact that 30 per cent of all traffic accidents happen to children of school age or under. This means that approximately 6,000 children are killed each year by automobiles.

## MILWAUKEE WOMAN IS P-T SOCIETY HEAD

Stevens Point—Mrs. George Zachow, Milwaukee, was elected president of the Wisconsin Parent-Teacher association at the closing session of its state convention Friday. She succeeds Mrs. George N. Tremper, Kenosha, who has been president six years.

Mrs. Julius Winden, Wisconsin Rapids, was elected vice-president-at-large, a newly created office. Mrs. T. J. Brown, Milwaukee, was re-elected corresponding secretary. Mrs. H. D. Hopkins, Waukesha, recording

VIOLA DANA and MALCOLM  
McGREGOR in "THE SOCIAL  
CODE"

AT THE ELITE THEATRE SUNDAY ONLY.

secretary, and Mrs. W. J. Hubbard, Milwaukee, treasurer.

Directors elected are: Mrs. T. I. McNamara, Stevens Point; H. H. Smith, New Richmond; Mrs. Milo K. Swafston, Dane county; Mrs. C. A. Little, Superior. All district chairmen are vice presidents and the convention confirmed the vice presidency of Mrs. H. F. Godko, Milwaukee district vice president, who succeeds Mrs. Zachow as chairman.

Invitations for the next annual convention were tendered by Superior and Milwaukee. Sentiment of the association favored Superior, and it is likely that the executive committee will accept this invitation.

About five thousands words have been added to the dictionary by the advent of radio.

## WINS FREEDOM FROM MAN WHO CHOKED HER

Unable to stand up under the beatings and abuse administered by her husband, Harry Calkins, Mrs. May Calkins applied for a divorce Friday morning in municipal court. She listed about a dozen other reasons for desiring her freedom and her plea was granted. She also received the custody of her 5 year old daughter.

\$15 per month for the child's support and court costs. Mrs. Calkins charged her husband with severe personal violence, the use of obscene and abusive names, drunkenness, squandering money and neglect of business. She said he often threatened to put the family out in the streets. Calkins was alleged to have hit his wife with his fist and at another time he choked her in spite of the fact that he knew she had a sore throat. Mrs. Calkins said she had been supporting herself and child for the last three years. At present

Calkins is serving a six-month sentence in the Milwaukee house of correction for taking indecent liberties with a minor.

The couple was married on Nov. 24, 1917 at Appleton. She gave her age as 24 and the defendants as 32.

The written language of natives of the mountainous regions of Sumatra closely resembles that of ancient Phoenician, giving rise to the belief that their ancestors came from that country.

## PARADE OF LIONS TO CONFERENCE AT FONDY

More than 40 Appleton Lions and their ladies are preparing to attend the district convention of Lions at Fond du Lac Tuesday and Wednesday. They are planning to make the trip in automobiles in a procession headed by the saxophone band of Oney Johnston post of the American Legion. Approximately 25 cars will form the motorcade, assembling at 9 o'clock Tuesday morning at College

ave and Park-ave. The cars will be decorated with American flags and pennants of gold and black bearing the inscription, "Appleton Lions club."

Motorcades from Green Bay, New London, Clintonville and Waupaca will join the procession in this city. The delegations from New London, Clintonville and Waupaca will be met by the Legion saxophone band at Richmond and Wisconsin, ave, while the Green Bay delegation will be accorded the same welcome at Leminwhist.

Morning at Nine  
O'clock - First  
Floor

## STARTING MONDAY— Pettibone's Great Annual Sale of Fine Silk HOSTIERY

Made By America's Finest Mills  
Marked at Appleton's Lowest Prices

PETTIBONE'S GREAT ANNUAL SALE OF FINE SILK HOSTIERY starts Monday morning. This Super-Sales Event has been one of the Big Occasions of May for years. THIS YEAR brings the BEST BARGAINS we have ever been able to offer. These wonderful values are only possible through the fact that Pettibone's is united with fifty other stores in co-operative buying of hosiery! This tremendous buying power makes these bargains possible in Appleton. For complete selections—be among the early bargain hunters Monday morning!

### Irregulars of \$2.75 Quality All-Silk Chiffon Hosiery

Genuine Ruby King Mills chiffon hosiery—a full fashioned ALL-SILK quality with silk tops and feet—a carefully inspected quality that runs exceptionally good. A complete range of new shades. YOUR CHOICE AT ONLY **\$1.48**

### Irregulars of \$1.95 Quality 550 Pys. Chiffon Hose

This is the same quality as the item at the left—except that these hose have the very durable LISLE TOPS and feet. There is a splendid range of sizes and colors—full-fashioned. YOUR CHOICE AT ONLY **\$1.19**

### Irregulars of \$2.25 Quality Out-Size Silk Hosiery

Service weight silk hosiery of excellent quality, full reinforced and shown in out-sizes. There are good colors, all of this same excellent quality. The quantity is limited—Buy early—YOUR CHOICE AT ONLY **\$1.39**

### Irregulars of \$1.85 Quality Full-Fashioned Silk Hosiery

Well-known standard quality, service weight silk hosiery, full-fashioned and made with strong reinforced sole, heel and toe. Splendid weight and good range of colors and sizes. A special bargain—YOUR CHOICE AT ONLY **98c**

### Irregulars of \$1.50 Quality White Boot Silk Hosiery

A limited quantity of slightly irregular hose of white boot silk. This is a serviceable summer hose—well made and nice looking. The quantity is small—you can get your size if you shop Monday. YOUR CHOICE AT ONLY **79c**

### Pettibone's Hosiery Sales Bring Super Qualities

A HOSTIERY BARGAIN AT PETTIBONE'S always brings crowds of customers—for Pettibone's Bargains are always of such outstanding quality! These offerings cannot be compared with ordinary "sale specials."

### These "Mill Irregulars" Are Often Considered "Firsts"

These special values are stamped "Mill Irregulars". The truth is that in most cases they are practically perfect. Pettibone's hosiery comes from mills that stamp "Irregular" on qualities that other mills sell as "perfects." The irregularity usually lies in a difference in the length of the foot or in wrinkles due to poor pressing. In nearly every instance the irregularity cannot be seen on careful examination, and never interferes with appearance or wear.

of Hosiery  
is Pettibone  
Quality!

## The Secret of Success Depends on Health

It is a fact that only about one person out of three enjoys good health. That occasional headache; that tired, exhausted feeling; loss of appetite; the casual cold—all these are danger signals you should heed. Nature is warning you of impending sickness. Seemingly trivial symptoms tell of serious troubles taking root in your body. And yet, ninety-nine people out of every hundred will absolutely ignore these danger signals. As long as they are not flat on their backs, they will fool themselves into believing that they are all right. I want to talk to you. The fact that you have been treated elsewhere without benefit does not discourage me in the least. I am helping men and women every day, affecting cures, many times in cases pronounced incurable by others, so that I feel sure I can do much for you. My counsel will cost you nothing, but my charges for treatment will be reasonable and not more than you will be willing to pay for the benefits conferred.

### FREE CONSULTATION!

I treat all forms of chronic diseases: NERVE DISORDERS, STOMACH and HEART troubles, URINARY, KIDNEY, BLADDER and SKIN diseases: LIVER COMPLAINTS, DROPSY, GOITRE, FISTULA, PILES, CONSTIPATION, CATARRH, ASTHMA, RHEUMATISM, AND ALL DISEASES PECULIAR TO WOMEN.

Your troubles show your mistakes, and this kind of experience is a terrible teacher; but STRENGTH and HEALTH can be had. Consult me. A physician whose SUCCESS is due to SPECIALIZED TRAINING, augmented by EXPERIENCE, is qualified to give definite, practical aid to sufferers. RESULTS COUNT. MAKE YOUR START TODAY. A decision in the right direction now, may save you years of regret. CONSULT me when I make my monthly visit to APPLETON.

### L. M. TURBIN, M. D.

Who has visited this county for the past thirty years, will be again in Appleton at the CONWAY HOTEL, Friday, May 25th, hours 9 A. M. to 3 P. M. and every Fourth Friday thereafter.

If you cannot call, write  
DR. TURBIN
